LIBERALS ARE GAINING

But Just What the Gain is Cannot of Course, be Told.

GENERALLY PROCEEDING QUIETLY.

Will be a Few Days Before the Exact Results Can be Figured Out.

OTTAWA, March 5.—The hottest political contest that the Dominion has ever known is being waged at the polls today. Never in the history of Canada has a battle for accession to power been fought so determinedly as this one. It is a struggle of more importance to the United States than any that has ever been fought either in Great Britain or any of her possessions.

For the first time since the existence of the Dominion the people through the ballot box are being offered today the opportunity of deciding what hereafter shall be the relations that shall exist between their country and the United States. The liberals, headed by ex-Premier Laurier, have gone to the front with the principle of unrestricted reciprocity with the United States inscribed upon their banners. To all intents and purposes the effect of the adoption of this principle would be to create a trade relation between Canada and the United States similar to that which now exists between the states of the Union. The platform of the Tories, headed by Sir John Macdonald, is simply a continuation of the policy of the late Sir John A. Macdonald, which was a policy of reciprocity toward the United States that the conservatives have always manifested.

All sorts of side issues have been dragged into the campaign. The liberals have been charged with divers offenses, of which disloyalty to their country and hatred of the queen were the worst. These charges have been successfully refuted. The annexation cry has been made to do violence to the memories, it being claimed that reciprocity was simply a stepping stone towards a union of the two halves of the continent.

In the maritime provinces the campaign has been considerably inhibited by the strenuous efforts of the priests in behalf of the Tories, and to such extent has this influence been exercised that it is said that several bishops have been disciplined by the papal college.

Advices from all parts of the Dominion say that an immense vote is being polled. No disorders have so far been reported. In Quebec the "B" battery of artillery is under arms in order to be prepared for service in case of possible trouble. The same precautions have been taken at other points in the Dominion.

From advices received up to 10 o'clock it is figured at the headquarters of the liberals that Laurier will have to be returned to power by a majority of 25 to 30. Reports indicate that the conservatives are losing heavily in the manufacturing cities of Ontario as well as in the rural municipalities of that province, and that there are considerable numbers of liberal gains in the Quebec district.

Eastern Ontario, forming a strong-hold of Toryism, is piling up votes for the liberals. In Quebec the "B" battery of artillery is under arms in order to be prepared for service in case of possible trouble. The same precautions have been taken at other points in the Dominion.

ANOTHER EYRAUD CASE

A Murder at Monaco Recalls the Eyraud Hypnotism.

COMMENTS ON THE COPYRIGHT BILL.

Englishmen Don't Like It; Germany at the Fair; Foreign Notes of Interest.

MONACO, March 5.—A man and woman were arrested here yesterday charged with the murder of Dr. Lindemann, of Manchester, England, in December last. The arrest has caused a sensation, because the crime is a direct reproduction of the crime for which Michael Eyraud recently suffered death in France. The woman is a type of Gabrielle Bonaparte, who was hypnotized by Eyraud, and the whole crime is one that opens a strange field of scientific research in hypnotism and crime.

Dr. Lindemann was a well-known Manchester physician who came to Monaco to attend the gaming tables. He lost and won much as other gamblers do and at one time had a very considerable amount of gold to his credit. It was then that the crime was planned to be committed, but the murderers obtained little.

WOULD RETALIATE.

The American Copyright Bill Not What It Seemed.

LONDON, March 5.—The St. James Gazette attacks retaliation against the United States new copyright bill. "If the Americans will not give their copyright to books printed over here," it says, "let us retaliate by refusing to give our copyright to books printed in the United States." The article is signed "The American Copyright Bill Not What It Seemed."

Germany Will Participate.

Berlin, March 5.—Germany will surely participate in the World's fair. A committee of merchants appointed to consider the question has decided in favor of making an exhibit. The committee has also decided to request Baron von Berlepsch, minister of commerce and industry, to nominate an imperial commissioner for the World's fair, whose duty it shall be to obtain all the facilities possible for a proper exhibit.

Sir Henry's Plan.

SIDNEY, March 5.—In the Australian Parliament mention yesterday Sir Henry Parkes moved that the House of Representatives should pass a resolution to the effect that the federal parliament should have authority to make laws for the purpose of obtaining all the facilities possible for a proper exhibit.

Argentine's Financial Straits.

Buenos Ayres, March 5.—The government is soliciting financial assistance from all sources in search of money. It is announced that President Pellegrini has summoned the managers of private banks to appear before him in order that he may ascertain what is believed here that 2 per cent tax now levied on private bank deposits will be repealed if the bankers consent to the government's assistance.

BRIEBY IS CHARGED.

One Place Where an Electric Light Contract Causes Trouble.

STEVENS POINT, Wis., March 5.—The situation of the electric lighting question in this city has now assumed sensational features. October 31, last, Raymond and Brown, attorneys for the Stevens Point Light company, who own twenty-five tax payers, began action on joining the common council from issuing bonds to no purpose.

The council then advertised for bids and the contract was let to Chas. J. Kuechel of Chicago, his bid being fifty cents per foot less than that of the home company. During the last week Kuechel has been placing poles for the city, and on Friday last, hearing that another junction was being made out, the work was accelerated, but was stopped by Raymond and Brown this morning.

The complaint alleges that there was a secret understanding between Kuechel and the light committee whereby Kuechel received consideration for the Alderman Russell was to be and is the superintendent of the new plant, and that bribery was used to secure the contract.

FOR THE COLONEL.

Col. Graves, of Duluth, May Get a Pleasant Reception.

WASHINGTON, March 5.—Government gossip about the interior department is to the effect that Col. C. H. Graves, of Duluth, will probably be designated as the agent to disburse the \$500,000 appropriated in the Indian bill for the payment of Sisseton Indian claims. Senator Washburn owes Col. Graves a political debt, and he proposes to take advantage of this appropriation to pay it.

Sherman Left No Will.

New York, March 5.—Yesterday afternoon the Rev. T. B. Sherman, who died last week, was buried in the city. Sherman made application at the surrogate's office for letters of administration upon the estate of his father, Gen. William T. Sherman, diligent search having failed to show that the general left a will. The general's personal estate will not exceed \$20,000.

These Were Left.

WASHINGTON, March 5.—The following presidential nominations failed to receive the necessary confirmation of the senate: James H. Beatty, United States district judge of Idaho; Thomas E. Oglesby, register of the United States and of the Minot, N. D.

A President for Augustana.

MOLINE, Ill., March 5.—The executive board of Augustana college has elected Professor Ole Olson to succeed the late Dr. Huselequist as president of the institution. Professor Olson was born in Sweden, and had his education in that country. He came to America in 1893.

Jay's Fine.

New York, March 5.—Judge Martineau, in the court of general sessions yesterday, imposed a fine of \$250 on Jay Gould for not answering a summons to serve as a petit juror, it being his second offense.

A FOREIGN MAJORITY.

Native American Voters Outnumbered by the Allies.

CHICAGO, March 5.—Statistics of the voting population show a slight preponderance of foreign born voters over those of American birth. The Teutonic vote, which comprises Germans, Swedes, Norwegians, Danes, Hollanders, Austrians and Swiss from the German-speaking countries, numbers 45,000. The Latin races comprising the French and Italian vote numbers 730 voters. The Do-British vote numbers 4345 and the British Isles with its conglomerate population of English, Irish, Scotch and Welsh tally 37,718, Ireland claiming 19,332 and England and Scotland 5391, and 1803 respectively.

Native Americans got along with 84,313 votes, of which, 3141 are colored. The number of votes all told is 142,374. The foreign-born vote is 88,061, leaving the unhappy native in a not quite hopeless minority at 54,313.

TOOK HER CLOTHES OFF.

The Maiden on the Seal of Wyoming Was Undressed in Transportation.

CHEYENNE, Wyo., March 5.—A most amusing predicament has resulted here over a piece of the legislation of the first Wyoming legislature in regard to the state seal. The accepted design had a clothed figure of a woman, from whose arms broken chains were falling, representing the enfranchisement of women in the new state. It is now discovered that some one, before it reached the governor, substituted a design which was an exact copy of the original except that the figure of the woman was nude.

This latter design was attached to the bill approved by the governor, and is now the design of the legal seal. The members are protesting vigorously against it and the governor will use the old territorial seal until the next legislative session, when the figure can be properly clothed.

THE FAIR WILL GO ON.

Organized Labor Is Satisfied With the Outcome of the World's Fair.

CHICAGO, March 5.—The executive committee of the World's fair directory has practically agreed to concede the demand of organized labor, for an eight-hour day, and the appointment of a board of arbitration.

Indians Sell Their Logs.

SHAWANO, March 5.—The Menominee Indians finished banking their 20,000,000 feet of lumber, to which they are limited, last week, instead of working a month later, as heretofore, which shows the difference of being under good business management. Heretofore a certain few were given permits to lumber on private accounts, although the timber belonged to the whole tribe. Under the present act, they have been paid a fair price for banking the logs, and after deducting the expense the net proceeds will go to a fund for the benefit of the whole tribe. Heretofore the logs have not been offered for sale until several months later, but the present act advertised for bids to be opened today, and today they were sold to the highest bidder.

Selling the Khedive Diamonds.

PITTSBURGH, Pa., March 5.—The famous Khedive diamonds valued at \$125,000 which were presented to Miss Minnie Sherman by the ruler of Egypt, in honor of her illustrious father when she was married to Lieutenant Thomas M. Fitch in 1874, are to be sold. Mrs. Fitch stated today that the death of her father nullified an agreement that the jewels were never to be transferred from the keeping of the family while General Sherman lived. The diamonds, although given absolutely to Mrs. Fitch, were divided among the four children, each per foot in value about \$5,000. Mrs. Fitch says she has authorized the sale of her share and that her sister, Mrs. Mary Thacker, has decided to do the same.

Spotted the Standard's Plans.

ERIE, Pa., March 5.—A few weeks ago the Standard Oil company decided to secure a tract of land at Erie to locate the Erie Metal company, now operating in Beaver Falls, as well as a number of other Standard works. About the time the plans were ready to be consummated the Lake Shore & Michigan Southern Railroad company threw a wet blanket on the scheme by refusing to give the Standard a switch without a stipulated guarantee of business. The Standard will not accede to the Lake Shore's demands.

Five Frozen Laborers Found.

GREAT FALLS, Mont., March 5.—The bodies of five men who were frozen on the extension of the Great Northern have been recovered. There are nine feet of snow at the summit, and the weather is very cold. This makes seven victims of the storm so far recovered. The men frozen were all laborers, and their names are unknown. It is feared many more have perished.

Jenious Miss Fuller's Revenge.

ANDOVER, Ind., March 5.—A \$10,000 suit for libel was filed in the circuit court this evening by Miss Julia Shott against Miss S. Fuller. Both girls lived in new Cox, a wealthy bachelor. Miss Shott found the most favor with Cox, which so enraged the defendant that she sought revenge in letters which were libelous and obscene. Miss Fuller will also be prosecuted for sending obscene matter through the mails.

To Investigate Mine Cruelties.

NEW YORK, March 5.—Bernard Reis, a writer on a Bohemian paper, has left for Poonchonta, W. V., to investigate the truth of the charges of awful cruelty claimed to have been practiced on a number of Hungarian miners near that place. He takes a pair of revolvers and a letter from the federal authorities as vouchers for his personal safety.

Exceeds Free Coinage.

WILLAMETTE, Minn., March 5.—Sheriff O'Dell, of Kandiyohi county, has arrested a man here giving his name as J. H. S. Rosell, of Minneapolis, for raising \$1 bills and making them read \$10. When arrested they found one \$10 bill in his pocket, which was raised; they also found brushes, paints and tools for altering bills in his possession.

Drowned Out.

MINNEAPOLIS, Pa., March 5.—The Otto colliery, which employs 300 men and boys, has been filled with water in the mines. The water came from an old working mine and the men were engaged in drilling an eight-inch hole, and raised so rapidly that the men had to leave the mines. It will be several weeks before operations can be resumed.

Machinery House Destroyed.

MADISON, Wis., March 5.—The machinery depot of S. L. Sheldon & Co. was burned yesterday. Loss \$45,000; insurance \$25,000.

NO MORE PRE-EMPTIONS

Local Land Office Receives Notice to Allow None.

MANY CITY CONTRACTS LET.

Eleven Public Works Contracts Filled Out by the Board of Works.

The local land office received notice here yesterday to allow no more pre-emption entries. This is done in obedience to the law lately passed by congress abolishing the tree claim and pre-emption laws.

This act will cut out of a good deal of the cash business of the Duluth local office, and will knock out a large number of iron land and pine land speculators who have already used their homestead rights and are now awaiting a chance to get hold of valuable lands through pre-emption rights.

Contracts Awarded.

Contracts were let this afternoon for eleven city contracts to be carried out this year as follows:

For grading Second street from Seventeenth avenue east to Grand Forks avenue, contract awarded to Davis & Cooper at \$67,567.70. There were four bids in.

For grading Second street, from Thirteenth avenue east to Kentucky avenue, contract awarded to Thomas Sheridan at \$77,535.70. There were three bids in.

For grading Ninth street east from Bench to Eleventh street, contract awarded to Carlson, Traff & Co. at \$45,089.25. There were six bids in.

For grading Twenty-fifth avenue west, contract awarded to Zimmerman, Traux & Co. at \$12,537.50. There were seven bids in.

For grading New street from Seventeenth to Eighteenth avenue west, contract awarded to M. Fitzgerald at \$378. There were six bids in.

For a sanitary sewer in Fifth street from Second and Third avenues west to Sixth avenue east, contract awarded to W. C. Doherty at \$9373.40. There were six bids in.

For sanitary sewer, Second alley, from Second to Twenty-eighth avenue west, contract awarded to Zimmerman, Traux & Co. at \$15,188.06. There were four bids in.

Sanitary sewer, First street, from Twentieth to Twenty-second avenue west, awarded to Joseph Wolf at \$10,926.30. There were four bids in.

For sanitary sewer in Fifth alley, Lake to Fifth avenue west, six bids received; awarded to Carlson, Traff & Co. at \$3,590.10; six bids received.

Grading portions of Jefferson street and Oregon avenue, awarded to Davis & Cooper at \$62,507. six bids received. These ten contracts so let call for the total expenditure of \$334,035, which will nearly all be spent for labor early in the year.

DEATHS AND BIRTHS.

Report by the Health Officer for the Month of February.

The mortality report for the month of February shows 47 deaths against 60 in January, making the February death rate 14.1, as against 18.1 in January. There were 128 cases of typhoid fever reported, while the deaths from that cause were 10. Of the deaths, 29 were of persons less than 1 year, 4 between 1 and 5, 1 between 5 and 10, 3 between 10 and 20, 14 between 20 and 40 and 3 over 40. Leading causes were: Typhoid, 10; infantile, 4; peritonitis, 3; meningitis, 4; measles, 3; bronchitis, 3; pneumonia, 4. There were 2 cases of scarlet fever.

Births for the month numbered 69, 35 males and 34 females; twins, 1; stillborn, 2; illegitimate, 4.

An \$800 Fire.

An alarm from box 12 this morning took the department to a dwelling on Stuphin street owned by Mr. Davis and occupied by a colored family. It was caused by a defective fuse and the loss was \$800, chiefly by water and smoke. In crossing the lake avenue railroad tracks one of the fire department teams narrowly escaped a train of cars and a horrible accident.

Wants to Walk 2,000 Miles.

J. W. McDonald, of Portland, Me., is trying to make arrangements with J. S. Harriman of this city, for a 2,000-mile walking match against the time made in Weston's famous walk from Portland to Chicago. It is very likely that the match will be arranged if Mr. McDonald, who will put up the amount of money which Harriman is willing to wager on the result. Harriman says that he would not undertake to walk unless there was at least \$5,000 a side put up.

The Ironton Company.

Some changes have been made in the personnel of the Ironton Steel and Tin company, several new Eastern capitalists taking stock, which is increased to \$2,000,000. There are now here three cases of material for the works, and it is expected that the company will prosper vigorously, but on a larger scale than first intended. One of the leaders among the new stockholders is Col. E. Humphreys, of Charleston, W. Va.

Perhaps the Writer Knows.

Duluth News: The question of the hour is, who broke the combination and gave Alderman Kennedy the winning vote for vice president of the common council?

Tallyrand in England.

Meanwhile Tallyrand had been sent on a diplomatic mission to London. He was to conclude an alliance between France and England. But while the negotiations were pending, news came that Louis XIV. had been deposed. M. de Tallyrand's mission was at an end. He had been very favorably received. The queen had turned her back on him when presented at St. James's. "She did right," said Tallyrand, afterward. "Her majesty was very ugly."

For Rent.

Houses in Chester Terrace which are now completely ready for occupancy. The finest and best finished houses in the city with all modern improvements. Steam heat furnished free of charge. Gas and electric lights, water, range, stationary stone tubs in laundry, etc. For terms call on Woodbridge building.

WASHINGTON, March 6.—Forecast till 8 a. m. tomorrow: For Minnesota and South Dakota: Clearing; colder; northerly winds. For North Dakota: Fair; no change in temperature.

NO DUST THROWING.

Health Officer Goffe has an interview in a morning paper, directed chiefly at The Herald, which is nothing less than remarkable. This paper does not, as its readers well know, pose as apologist of Dr. Goffe, and his personalities can well be passed by unanswered and unnoticed. Passing to the more important statements in this morning's News a little comment seems deserved. He says this paper

"wanted to know why nothing had been heard from other samples of water sent for analysis at the time those were sent to Dr. Vaughan. The only other samples sent about that time for examination were sent to Dr. Hewitt, secretary of the state board of health, the man who according to The Herald was to tell exactly how to stamp out the epidemic and who when he came here said he could stop it within two weeks. The Herald knew these samples were sent to him, because it published the fact at the time."

Dr. Goffe, at the time water was sent to Dr. Vaughan stated to the papers that "several leading bacteriologists in different parts of the country had received samples of water," but he refused to give their names, and he publicly expressed the greatest surprise when the fact that Dr. Vaughan had received samples for analysis was published. He went so far as to state that the arrangement between himself and Dr. Vaughan "was a confidential one" and he did not believe the published reports of the results of Dr. Vaughan's investigations "because the doctor would not have given the matter out to any one." The Herald, nor any other paper, knew to whom samples were sent, and Dr. Goffe then knew and now knows this.

The worthy health officer intimates that The Herald has been a friend and believer in Dr. Hewitt, and that he had opposed Hewitt. Every reader of The Herald, Dr. Goffe included, knows that the contrary is true; and The Herald would advise Dr. Goffe, as it advised Dr. Hewitt, to keep his brains with him.

Dr. Goffe states to the reporter that the fever is decreasing. He knows the statement is absolutely false and that any reputable physician can refute it. The Herald hopes that its position will not be misunderstood. It can hardly be mistaken. We have no personal fight, no personal grievances. So far as the writer knows no employee of The Herald has died of typhoid. But others have and no doctor's health reports nor suppressed water tests will help the matter. What the people want is the truth and a way out, and The Herald is doing its best to help the people. Dust throwing does not do.

A SCHOOL OF MINES.
Mr. Penney of Hennepin, has introduced in the state legislature a bill providing that a school of mines be established at the state university at an expenditure of \$50,000, and that \$4500 be appropriated annually as salaries for the instructors, of whom one is to be a professor of electrical engineering.

Two years ago a bill was introduced, similar in all vital respects, except that the school of mines was to be at Duluth. It was defeated largely by the Hennepin delegation, which did not want and branch of the public higher instruction elsewhere than at Minneapolis. Duluth is the only city of importance in the state when the natural conditions are such as favor a school of mines. Tower probably is even better located, so far as natural advantages are concerned, but it is yet a small place, reached by but one railway and a long way to one side. No one not even a citizen of Hennepin county, would propose to establish a farm school in the heart of a city. No one should establish a school of mines 250 miles from the nearest deposit of workable minerals, and if a school of mines is established Duluth or Tower should have it.

The Herald, of course, believes Duluth is the better location of the two. It would much rather see the school at Tower, however, than at Minneapolis, where whatever money is put into it will be simply for half useless theoretical training. It is practical training does the business and that must be near the mining country.

DONNELLY STILL AT IT.

Ignatius Donnelly, in his debate with Professor Freeman at Madison, announced that within a year he would demonstrate "beyond a mathematical doubt," whatever that may be, that Bacon and not Shakespeare wrote the plays." A year is long time, says the Milwaukee Wisconsin, yet the public will probably wait patiently. In some questions of authorship the general public is interested. It hears as rumors that W. T. Stead and not Gen. Booth is the author of "In Darkest England and the Way Out," and likes to get at the facts. In other questions of disputed authorship scholars, and scholars only, take an interest.

Few care about the result of the Shakespeare-Bacon controversy. Neither the general reader nor the serious scholar takes more than a passing interest in the matter. Stupid people, who love to find themselves lost in wonder, and pick up the strangest things to wonder at, read the books of the Baconians. Many clever people also read and write them—people who, in spite of their cleverness, are born with a love of the grotesque. A question may often be judged by the men who are interested in finding its answer. Donnelly's Baconian theory is as weak as when he started it.

A member of the firm H. R. De Milt & Co., importers of New York, states to a reporter of the New York Press that his firm has received its first consignment of American roofing tin made on our soil. There are about 100 boxes of the tin, and it was made at Apollo, Pa. The price is a little less than for the corresponding weight and quality in the imported article. The quality is excellent, and much of it is equal to the best imported plate in the market.

The county commissioners have taken up the idea advanced by The Herald—and The Herald alone—some weeks ago, and have resolved in favor of an issue of county bonds to lay a water main from below Stony Point, on the north shore, to this city. There is one thing sure—this generation will never see water from such a source polluted.

The latest development of alliance eccentricity in the Kansas house is a bill to prohibit the making of contracts payable in gold. No such bill can pass the Kansas senate, and if it could, its constitutionality would be an open question, but its introduction serves to show how entirely reckless the alliance members are of the credit and the financial interests of the state.

Mankato proposes to elect John A. Willard its mayor. It couldn't do better. Mankato is afraid her Willard may move to Duluth and proposes to anchor him to his old home for a couple of years anyway. Great head, Mankato.

Railway Projector Holmes states that the money to build the Duluth, Red Lake Falls & Northern is secured and work will begin this year. The Herald hopes so.

POTENT NEW DRINKS.

The New York Herald wants to know if the world has tried an oyster cocktail or a cafe royal trapped. Up in the great white marble palace at the corner of Fifth avenue and Thirty-fourth streets, the two new drinks are all the rage. The young barkeeper of the Manhattan club who dispenses drinks over the Mexican oyster bar in the basement of the club house, is responsible for the two innovations.

The oyster cocktail will revivify a corpse and stimulate the jaded taste of a man of leisure. As an off hand drink, however, it does not fall in the same class with other cocktails, inasmuch as alcoholic liquors do not enter into its composition. It is made as follows: The juice of half a lemon is strained into a large goblet to which is added a dash of tobacco sauce, a teaspoonful of pepper sauce, a trace of vinegar, a pinch of salt, red suggestion of red pepper and a slightly larger quantity of white pepper. This entire array forms but the seasoning for the liquor of half a dozen freshly opened succulent Blue Point oysters, which is next added to the contents of the glass, and completes the cocktail.

The idea of the newly devised drink is to combine the preliminary cocktail and the first course of a dinner. With this end in view half a dozen oysters are submerged in the liquid and allowed to remain for a brief period, after which they are drawn forth singly with an oyster fork and eaten. The balance of the liquor that remains in the glass serves the purpose of washing down the repast. It is a hot but very stimulating drink. The other courses of the dinner follow. Upon completing a dinner thus begun the other novelty, trapped cafe royal, is in order. It consists of three-fourths of black coffee and one-fourth brandy, trapped in a cooler, and drunk while the mixture is yet in a semi-frozen state. It is very potent.

After a dinner begun with an oyster cocktail and polished off with a cafe royal trapped, a man of sixty is fit to run a foot race with a boy of sixteen from the corner of Fifth avenue and Thirty-fourth street to Central Park and return.

Tariff Pictures.
New York Press: Arthur T. Lyman of the Wool Consumers association, replying to Judge Lawrence's recent manifesto, says: "Our ground is that the interests of 65,000,000 require free wool, because otherwise the country does not get a full supply, and because other countries are better fitted to raise wools than are the people than this country is, and therefore that wool stands in a position very much like that of sugar."

Let us see how that is. It is estimated that we consume 3,250,000,000 pounds of sugar products a year. During the last fiscal year we imported

2,464,000,000 pounds.

So our domestic production is not more than 786,000,000 pounds.

We come a good deal nearer than that to supplying our own demand for wool. The whole importations for the last fiscal year were

100,000,105 pounds.

But the wool clip for 1890 is estimated at 309,474,550 pounds.

THE COUNCIL READY.

And the Citizens Against Now Let Specialists Tell Us.

To the Editor of The Herald:
Our health officer appears to feel injured because people are anxious about the prevalence of typhoid fever, and makes the astonishing statement that it is abating, when every doctor in the city is reporting an alarming increase. Within two blocks of Goffe's residence are twelve or fifteen new cases—nearly all within a week or ten days.

There are but very few people who can suggest remedies that is in the province of the medical men of our city, many of whom seem to be supremely indifferent to the source that is visiting our community; they seem to be well satisfied with the rich harvest they are reaping from their calling. Apparently not one single move has been made to get at the cause of this epidemic. Our health officer would stand before the community in much better light if he was leaving no stone unturned to get at the cause of this evil instead of being interviewed in his own defense regarding the remarks of a citizen stung to madness with the prospect of his home being broken up by this fever. One doctor has announced his intention of going away to study up more thoroughly the treatment of fever cases. Now why can't he take a little time in connection with his brother doctors and study up the cause of this fever being so prevalent here? Our city council, our citizens, are anxious to do anything and everything but they are not scientific men. Let our health officer do something besides talk; let our doctors make this their one great work; get at the cause, and the council and community will second them with money and approval to carry out practical remedies. Is it not probable that the ice keeps the sewage from scattering as it would in open water? May our water not be getting worse all the time for this reason and will there be any help till the ice leaves us?

Is not the ice now being gathered as badly infected as the water, and all ready to continue the spread of the scourge when warm weather sets in? No wonder people won't come here to live. No wonder business suffers; it will continue to suffer, and already our city is talked of everywhere as a town to be shunned.

We may as well look this question squarely in the face and move heaven and earth to remove this trouble if we do not want to see the city get such a set back it will take years to overcome. CITIZEN.

Hoopskirts Again
may come into style, but it is hoped not. The transformation which will bring back that style of ornaments ought to be indefinitely postponed. Transformations in the health of thousands of women throughout the country have taken place during the past few years. Pale, haggard, and dispirited, they have become bright-eyed and healthy. The secret? Dr. Pierce's Favorite Prescription, which cures all those chronic "weaknesses" and distressing ailments peculiar to women.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

WORLD OF COMMERCE.

Cash Wheat and Future on the Duluth Market.

MONEY MARKETS IN THE EAST.

Leading Speculative Commodities in All the Leading Markets of the World.

The last sales were made today in May No. 1 northern at an advance of 1/2c over yesterday's close. No trading was done in May No. 1 hard until very late in the session at 1c advance over yesterday. Cash also sold at 1c advance over yesterday. The market looked somewhat nervous and irregular in the forenoon. The news received today was for the most part bullish, except the large receipts in Minneapolis and general news prevailing in winter wheat regions. The fear of a corner in May wheat seems to be ringing up the straddlers, who are selling July and purchasing May wheat. The heavy operators in Chicago today were buyers of the May wheat. The Odesa wheat stocks decreased 4,000,000 bu from June 15 to Feb. 15. The English cables confirmed the great damages to the French crops. Foreign markets were for the most part bullish. News reached here that the Argentine Republic has suspended business until Monday to stop the run on the Commercial bank, the only one to withstand the late panic. There was quite a large shipment of wheat from here today. The market was not very active today but firmed up in the afternoon and the close was at an advance on a firm basis of 1c to 1 1/2c over yesterday's closing figures. The majority of trading was done in May with a few trades in cash.

May No. 1 hard sold early at 88 1/4c and went to 88 1/2c selling, 88 1/2c, recovered, and fell off to 87 1/2c, recovering to 88 1/2c and 88 1/4c up to noon. In the afternoon the rise was rapid, the close being at 89 1/4c bid. May No. 1 hard did not open till very late, selling at 81.02 1/4c. In the afternoon under the excellent local and outside demand it went to 81.03 selling just at the close. Cash No. 1 hard on track sold late at 88 1/2c and the same for the new fresh receipts, sold at 88c. No trading was done in other futures.

The closing prices today were as follows:

	Cash	May	June
No. 1 hard	88 1/2	89 1/4	89 1/4
No. 1 northern	89 1/2	90 1/4	90 1/4
No. 2 northern	88 1/2	89 1/4	89 1/4

Cash on track: Wheat, 35; last year wheat, 18. Receipts: Wheat, 24,894 bu. Shipments, 10,500 bu. Inspection: cash No. 1 hard, 14; No. 1 northern, 19; No. 2 northern, 1; total, 34.

TOO MUCH FAMILY.

He Would Not Pay His Step-Daughter's Grocery Bill.

Judge Ensign today granted a divorce to John O. Blazer from his wife, Elizabeth Blazer. The complainant is 56 years old and the wife 57. They had declined considerably into the vale of years before the alleged cohabitation began, and had both been married before.

The children of former marriages could not agree and the plaintiff would not pay his daughter-in-law's grocery bill. Consequently his wife shut the door in his face one day and he was left outside in the dew and the rain. Since then, although the defendant endeavored to effect a reconciliation, they have been as strangers, and the last act of the tragedy opens in the courtroom and the curtain rings down on a divorce.

Lake Seamen Will Affiliate.

The Lake Seamen association has decided to affiliate with the International Union of Marine Workers. This is the direction of centralization of all seamen's unions in the world. The lake association includes 130 local bodies in the United States and Canada. Headquarters are located in Chicago. The president of each union is a paid officer, whose duty it is to look after the interests of all sailors who enter the ports in which he resides. The annual election of these officers will take place in the last week in March. Changes in the maritime laws of the United States and Canada will come before the next convention. Amendments to the laws providing for property qualified seamen and regulations regarding the "load line" will also be proposed.

CITY BRIEFS

The Cecilia society met with Mrs. J. B. Gaggie, 1910 Bench street this afternoon.

Proceedings are being begun by Henry S. Wilson to oust the squatters on the Albert Posy tract.

H. E. Ball has nearly completed a two-story building at St. Louis and will establish a hardware store. The hotel being built at the new town by the Improvement company is also nearly finished.

Mrs. William Heideman died last night of typhoid fever, leaving a husband and six children, the oldest 12 years old and the youngest 4 weeks.

The funeral will take place Saturday morning.

At last night's meeting of the Thursday Evening Euchre club, held at the residence of Mr. and Mrs. C. E. Wright, Twenty-seventh avenue west, the first prize was taken by Bert Marshall and the booty by C. A. Gregory. Refreshments were served during the evening.

The retail clerk's meeting was well attended last evening. The net profit from Wednesday's concert was about \$50. Five more applications for membership were received. Many members of the union will visit Superior Tuesday evening to attend a meeting of the union there.

Following is the Chautauque L. S. C. program for Monday evening, March 9: Quotations from Burns; general review English literary history; history of the church in the United States; Mr. Piney, paper, "The English Towns," Mr. Feetham, paper, "Coxcomb and Coquette in Tudor Times," Mrs. Parsons.

The following variations in temperature were recorded at Pioneer Fuel company's office, Hotel St. Louis, 326 Superior street: 12 p. m., 11° above; 3 p. m., 10° above; 6 p. m., 15° above; 9 p. m., 14° above; 7 a. m., 14° above; 9 a. m., 15° above; 12 m., 20° above. Maximum, 20° above; minimum, 11° above; daily range, 9°.

PERSONAL.

J. Kahn left today for New York.

J. W. Norton returned yesterday from Boston.

Meese, Cochran and Walsh left this afternoon for Cleveland.

Monroe Nichols took the Omaha train this afternoon for Chicago.

Mrs. C. W. Piper and children left yesterday for St. Paul on a visit.

Dr. Slaughter, who has been ill for some time is now convalescent.

R. A. Gray has returned from a visit in Paris and other parts of the East.

Charles Edwards was arrested this morning for stealing a horse blanket.

E. L. Wodan, family of Christian, S. D., are now residents of West Duluth.

R. H. Wise, proprietor of the Arlington hotel at Brainerd, is in Duluth today.

Mr. and Mrs. E. W. Matter returned yesterday from a short trip to New York.

Miss Morris, of Minneapolis, is visiting her sister, Mrs. L. McMin, on Bay View Heights.

Mrs. Sawyer and daughter have returned from a two weeks' visit in Minneapolis.

J. B. Cotton has returned from conducting law cases in Dodge county, Minnesota.

Miss Lottie Hoople is seriously ill with typhoid fever, and great anxiety is felt for her.

I. S. Moore, receiving teller at the American Exchange bank, has gone on an Eastern trip.

Dr. Campbell, of Boston, Mass., is in the city, called here by the illness of his son, who is stopping with Capt. Ray T. Lewis.

R. K. Doe, a civil engineer of St. Paul, has formed a partnership with A. E. Tegreus, also of St. Paul, and will locate in Duluth.

Pat Rooney, who appears at Temple opera next Thursday and Friday, was represented in Duluth today by C. L. Graves.

H. N. McHarg, of the firm of Chapman & McHarg, has gone East on an extended and important trip. He will be absent some time.

Mrs. J. M. Geist and daughter are spending a very pleasant time with friends in St. Paul. They expect to be absent about a month.

George E. Shenehon, a real estate dealer of Minneapolis, will locate in Duluth and have charge of the business of the Northwestern Investment company.

William F. Brown departed for New York city yesterday afternoon. He will marry Miss Eva Collander, of Connecticut, on the 17th, and bring his bride to Duluth.

W. H. Burke expects to leave next Sunday for New York, to take a position with Dr. Albert Shaw on the Review of Reviews, the American edition of Stead's new and popular monthly.

Miss Allie Parsons was given a pleasant surprise party at her home last evening by her young friends. Refreshments were served and dancing was the enjoyment of the evening.

Wilmet Saeger, lately cashier of the Marine National bank, has already taken hold of the Keystone National at Superior and has issued its first statement. The best wishes of very many Duluth friends go with Mr. Saeger.

Last evening at the residence of the bride's sister, Mrs. Franklin W. Merritt, 131 East Second street, Mr. Frank H. Love was married to Miss Olive B. Giles, Rev. A. F. Thompson officiating. The ceremony was witnessed by only the intimate friends of the bride and groom.

A NEW COMPANY.

The LaVague Paint and Wall Paper Company is Incorporated.

The LaVague Paint and Wall Paper company of Duluth filed articles of incorporation with the secretary of state yesterday. The capital stock of the company is \$50,000. The incorporators are John H. LaVague, George N. LaVague, John McKinley, D. J. Sinclair, J. E. Cooley, of Duluth, and Clarence S. Doe, of Minneapolis, Tenn.

Mr. LaVague stated that the reason of the incorporation was to increase the business and enlarge the stock. "My business," said he, "has been increasing wonderfully—so fast, indeed, that I have found that my present resources are unable to meet the demand. We will increase our help and also enlarge our stock. The change at present will be made in the store." The limit of indebtedness is placed at \$25,000.

\$150 For New Duluth Stock.

We have customers who want New Duluth Land company stock and will allow \$150 per share for it, splendid Duluth real estate at bottom prices.

C. E. Lovett & Co.

The Iron Bay works has secured the contract to construct all the engines, boilers, winding drums and machinery to be used by the Seventh avenue west incline road.

For Rent.

Ask your druggist for it, or write to W. H. Hooper & Co., 46 West Broadway, New York, for book.

For sale by S. F. Boyce, Druggist, Phoenix Block.

A REJOINDER.

Mr. Gridley Has a Few Words for Both His Critics.

To the Editor of the Herald:

On the subject of typhoid and more efficient work by our health department I have this further to say: In my issue of March 3 Mr. Hugo undertakes to state all that has been or is being done. His article admits that I stated the facts in my issue of March 4. In the News of this morning he states that I admit the facts in my article—that 60 deaths from typhoid have resulted from our water supply within three months; that there are from 50 to 100 cases now; that the city water is nothing short of sewage; that the extending of the intake pipe to the sewage basin, that he is employing less men now than three months ago. All of the foregoing can now be taken as officially admitted.

Nothing worth mentioning is being done. The action of the county commissioners is right, but that takes months. Can't something be done temporarily?

To Mr. Hugo I would say, the people do not care one farthing whether I am a fool or a scoundrel; and they do not care one whit more for you. They want pure water and they have the right to demand that you as a public servant do something. To Mr. Goffe the same. Why not forfeit the franchise of the Gas and Water company and condemn the plant, take immediate possession of it and put the intake pipe out to pure water?

E. C. GRIDLEY.

A GOOD MOVEMENT.

Really Hot at West Duluth and on the Dock Front Active.

There has been a very good movement in West Duluth real estate today, especially on Central avenue. There is also a great deal of inquiry for dock property between Eighth and Thirteenth avenues west. The demand for dock property is said to be created by the endeavors of the Baltimore & Ohio road, which will put on a line of boats connecting Sandusky with Duluth. Their agent was in Duluth a few days ago and got prices on all the dock property which he thought available for the purpose for which he wanted it.

Within the last week quite a number of Ohio and Pennsylvania people have been anxious to secure prices on the best dock properties. Real estate men are very much cheered today over the outlook for a good spring movement in realty.

Building Permits.

Building permits were issued today to Andrew Peterson for a \$1025 house, corner Nineteenth avenue east and Fourth street; D. Ridgway, one story \$300 house, Railroad street in Helms addition; James O'Neal, repairs on burnt dwelling, East Sixth street, Silverton E. Cornish, dwelling on East Seventh street, \$300.

A Splendid Local Contract.

The Iron Bay works has secured the contract to construct all the engines, boilers, winding drums and machinery to be used by the Seventh avenue west incline road.

For Rent.

Houses in Chester Terrace which are now completed and ready for occupancy. The finest and best finished houses in the city with all modern improvements. Steam heat furnished free of charge. Gas and electric lights, water, range, stationary stone tub in laundry, etc. For terms call on P. W. Smith, Woodbridge building.

Lot 3, block 55, Endon, only \$1800. D. H. Stevenson & Co., 31 Farguson block.

STATE OF MINNESOTA.

I, H. A. Ware, Cashier of the above named bank, do hereby certify that the above statement is true to the best of my knowledge and belief.

Subscribed and sworn to before me this 6th day of March, 1919.

BALTIMORE WHALEBACKS

A. D. Thomson Negotiating With the B. & O. Railway

FOR OCEAN AND LAKE STEAM LINES.

A Great Atlantic Yard at Which the Bulk of Building Will be Done.

BALTIMORE, March 7.—The American Steel Range company, constructors of the old-lodge wheelbarrow steamers and barges, who began the building of the vessels in Duluth at the west end of Lake Superior, three years ago, will this spring run lines of these vessels from Baltimore to Boston and New York, and from Philadelphia and Cuba. A. D. Thomson, a director of the company, is now in this city to hold a conference with the Baltimore & Ohio railroad officials about establishing a line of the "whalebacks" from Baltimore to carry all the Baltimore & Ohio's coastwise commerce, and also lines for their traffic on the lakes, to connect with the railroad at Cleveland and Sandusky.

Mr. Thomson says the company will send seven steamers through the Sault canal and to the coast by way of Montreal in the spring, to put in the Atlantic coast trade. Each steamer will carry 3000 tons of freight or 100,000 bushels of grain, and average fifteen miles an hour when loaded. When light they will draw three feet of water and six feet aft, but when loaded they draw seventeen feet. Three of these steamers will be sent around to the Pacific coast, to run with coal from Puget Sound to San Francisco while the rest will go into the transatlantic trade, running between New York and Liverpool.

The company will build a shipyard on the Pacific coast to construct steamers that will carry 4000 tons of wheat and run to London. They are also likely to build a yard on the Atlantic coast, and Mr. Thomson thinks Baltimore offers a favorable location for the enterprise. The Atlantic coast yard is to be the largest of those owned by the company and will do a great deal of the work that is now done at the lake yard. It is the intention of the company to go into the transatlantic passenger trade also, and the ocean yard will build passenger ships. John D. Eckelbauer is the head of the company in the enterprise, of which Colgate Hoy is the president.

THE SCHLESINGER.

The Biggest Wood Steamer Yet, Launched at the Milwaukee Yard.

MILWAUKEE, March 7.—The mammoth wooden steamer, owned by the Schlesinger syndicate, was launched at the Davidson shipyard this afternoon at 2:30. The Schlesinger is the largest wooden steamer ever built on the lakes, and will have a carrying capacity of over 3000 tons of iron ore on a draft of 15 feet. She is the first of a fleet of four being built at the same yard for the ore trade in Schlesinger mines between Escanaba and Lake Erie.

Marine Notes.

Officers for the Marina, the Minnesota Iron company's new steel steamer will be as follows: Captain, R. C. Storer, second mate, John Costello, chief engineer.

The Duluth-Superior Steamship company will buy or build a small fleet of tugboats to compete for the business of the head of the lakes. The company will add a wrecking outfit and will also have a new ferry on the Duluth-Superior route. It is now negotiating for a site on this side of the bay for a terminal dock.

WITH THE LEGISLATURE.

The Duluth and West Duluth fight will come for the present, and further developments, when Mr. Boyd will again renew his interest, which has already been too much exercised. The question of the West Duluth charter has not been heard of for the past few days and is in the hands of the committee, which will return the report amended. The supposition is that the question will be indefinitely postponed.

The settlement of the interest question, which was deferred by adjournment, has been postponed until Tuesday next. It is expected that then the question will be decided.

Four air and ventilation has done considerable damage to the health of the dignitaries of the senate chamber. Chaplain Savage has been absent three days. Governor Ives is confined to his home by sickness. Several have severe colds, others manifest symptoms of grippe. Twelve senators were absent yesterday, and many more expressed a desire to be excused to consult a physician. Senators Dean, Hall and Mayo are in committee to consider the lack of sufficient ventilation of the senate chamber, and to consult with an architect and devise some better means of ventilation.

Senator Daugherty presented petitions from citizens of Duluth in regard to the age of consent. No appropriation bills will be introduced after March 20. The bill for a revision of the Duluth park act will meet no opposition in the legislature. Mr. Rogers and Maj. Upham have explained the situation fully and the legislators are aware how necessary it is for the park board to work most effectively. Mr. Rogers has made this a special subject and has carefully prepared the bill with a view to prompt and effective work on the part of the commissioners. Every one of the legislators seems specially interested in the beauties of the city at the head of the great lake and knows the extraordinary opportunity for parks and connecting parkways in Duluth's picturesque surroundings.

Mr. Kendall has offered a petition of citizens of Duluth urging the enactment of a law granting municipal suffrage to women. Mr. Kinney yesterday afternoon offered a bill for an act relating to lands heretofore granted or conveyed to the trustees or town council of the town of Fond du Lac in the county of St. Louis. The bill was passed, yeas, 69; nays, 0.

St. Paul Teachers Paid.

St. Paul, March 7.—The city teachers are happy. Negotiations with Springfield, Mass., capitalists have at last been satisfied with the city securities and have advanced the money. Salaries for the past two months to the amount of \$82,000 were paid today.

A New Failure.

New York, March 7.—The failure of A. E. Nichols is announced on the consolidated exchange.

STABBER IMPRISONED.

Crunk of the Ripper Type in the Clutches of Law.

LONDON, March 7.—A companion fiend to Jack the Ripper only on a somewhat lesser scale, was sent to Broadmoor Insane asylum to be confined during what is known as "His Majesty's pleasure," which practically means for life. His name is Edward Collicott, and he is the youngest son of a wealthy jeweler of this city.

Some time ago the police authorities commenced to receive numerous complaints from young women in the western suburbs to the effect that, while out after dark they were approached by a young man who came suddenly up behind them, stabbed them in the back with a sharp instrument about the thickness of an awl. Extra detectives were put on duty in the districts from which the complaints came, but for some time without result. A couple of weeks ago, however, a furniture dealer noticed Collicott standing behind a couple of young ladies in a suspicious manner, and determined to watch him. Suddenly he made a step forward, and gave one of the young women three stabs in the back. Then he took to his heels but was followed by Myers, the man in question, and arrested.

It has been the custom to keep United States customs officers at these points to seal and manifest cases containing goods shipped in bond through Canada. This built up the business of American large business houses where American ships from the West loaded their goods. Elevator charges were less, which made it an object.

It is claimed that fraud has been practiced under this arrangement, and a great amount of Canadian goods and produce was brought into this country through the dishonesty of the United States customs officers, who winked at the loading of Canadian goods into cars which were subsequently sealed as American goods and entitled to re-entry into this country duty free.

In his speech at New York just before he died Secretary Windom intimated that there was no doubt fraud was practiced in this connection. It was taken to mean that he had determined to withdraw the customs officers. It was learned at the treasury department today that the Canadian railroad had asked to have the matter reconsidered and this has been denied by Secretary Foster, and the opinion made will probably stand. Of course the Canadian roads would not want a rehearing if the decision had been in their favor. The decision would probably have been made before had not Senator Washburn and other Northwestern parties made strenuous opposition to the withdrawal.

BLAINE APPRECIATED.

Business Men of New York Favor Extended Reciprocity.

WASHINGTON, March 7.—Laurens Loomis, of New York, waiting on Secretary Blaine today, and presented a memorial from wholesale dry goods merchants, exporters and others, of New York, irrespective of party, expressing appreciation of his action in the matter of reciprocity. The memorial contained the signatures of 200 prominent business men, representing an invested capital of \$60,000,000.

Don't Want Women.

WASHINGTON, March 7.—The Baltimore school conference yesterday debated the question as to woman's eligibility as delegates to the general conference by a vote of 145 to 58.

RUSSIAN SENTENCES.

Murderer Arrested and a Suspect Committed.

ST. PETERSBURG, March 7.—Degajeff, the nihilist leader, and murderer of chief of the secret police in 1883 has been arrested at Kostroma. A reward of 10,000 roubles has for a long time been offered for Degajeff's arrest. The chief instructor at Kostroma, gymnasium who was suspected of being implicated with Degajeff committed suicide just as the police burst open the door of his room.

Tolstoi's Plans Don't Work.

ST. PETERSBURG, March 7.—The Tolstoi Socialist community, established some time ago in Chorkoff, has been dissolved, owing to the incessant quarrels among its members. The owner of the property where the community was located, a Russian landlord, finally becoming thoroughly out of patience, has dispersed the community and divided the lands which it occupied among a number of peasant families of the neighborhood.

The Mafia Have Support.

New Orleans, March 7.—Mayor Shakespear has received an anonymous letter threatening assassination in case any of the accused Sicilians, now on trial for Chief of Police Heessey's murder, are convicted. A local newspaper, the States, says that during the process of unparalyzing jurors, several talesmen were approached with money to render a verdict of acquittal.

The Carnival of Crime.

WHEELING, W. Va., March 7.—Dr. George Baird, a prominent city physician, was very ill and has been confined to his hotel since Wednesday morning. He has had nicotinic for the last two days, and there is strong reason to fear that this is due to a trouble which has not fully manifested itself, but which is likely to prove of the most alarming nature.

Gutenberg Bible Purchased.

CHICAGO, March 7.—There is rejoicing here among bibliophiles over the purchase of the Gutenberg Bible by James W. Ellsworth at the Brayton Ives sale in New York. The sum paid is \$14,800 and the book is the first ever printed.

Price of Both Legs.

ST. LOUIS, Mo., March 7.—At New Boston, Texas, yesterday William Rector, (colored) a boot black was awarded \$10,000 damages against the Texas & Pacific railroad. The plaintiff was thrown from the train some months ago and had both legs cut off.

A Receiver for the American.

New York, March 7.—Judge Beach in the supreme court, today appointed J. Edward Simmons as receiver of the American Loan and Trust company of this city, fixing his bond at \$200,000.

Prince Jerome Napoleon in Rome.

Rome, March 7.—Prince Napoleon, wife of Prince Jerome Napoleon, is in attendance upon her husband, whose condition shows no signs of improvement. He is not expected to live.

A Hitch on the Inclined.

It is stated by officers of the Street Railway company that they are disgusted with the way some hill property owners came up with the shares of the fund for building the new up Seventh avenue west and that because of the delay and because of the award of damages for the use of Seventh avenue the line will not be built. The officers of the Highland Improvement company have nothing at all to say.

NO MORE BOND SHIPPING.

A New Treasury Order That Will Affect Duluth,

BECAUSE OF POSSIBLE FRAUD.

Rail Business in Bonded Goods Across the Border to be Stopped.

WASHINGTON, March 7.—It is expected that Secretary Foster will in a few days promulgate an order withdrawing customs officers from Canadian points where international roads cross from the United States into Canada.

It has been the custom to keep United States customs officers at these points to seal and manifest cases containing goods shipped in bond through Canada. This built up the business of American large business houses where American ships from the West loaded their goods. Elevator charges were less, which made it an object.

It is claimed that fraud has been practiced under this arrangement, and a great amount of Canadian goods and produce was brought into this country through the dishonesty of the United States customs officers, who winked at the loading of Canadian goods into cars which were subsequently sealed as American goods and entitled to re-entry into this country duty free.

In his speech at New York just before he died Secretary Windom intimated that there was no doubt fraud was practiced in this connection. It was taken to mean that he had determined to withdraw the customs officers. The officers of the Highland Improvement company have nothing at all to say.

CARPENTERS CONVENE.

Reviewing the Situation With Reference to a General Strike.

CHICAGO, March 7.—Tomorrow is likely to be a notable day of great import for Chicago. The officers of the local unions of the carpenters have called upon all the members of the organization to meet at Battery D for the purpose of deciding whether or not a general strike shall be inaugurated. There was a similar meeting on April 4, a year ago, but the consequences of that gathering are as nothing compared to what the outcome of tomorrow's meeting may be.

A year ago Chicago was simply Chicago; now it is the World's fair city, and all eyes are upon it. With the journey-men also conditions have changed in the past year. When the great strike of '90 was ordered there were less than 1800 union carpenters in good standing. Now there are over 7000, while at least 2000 more that do not belong to the organization, will follow its lead.

Employers have absolutely refused to agree to the journeymen's terms and should the men decide to go out every bit of building operations in the city will be tied up as the Building Trades assembly has agreed to support the carpenters in their demands. This means that no union men of whatever trade will work on a union job with non-union men. If a strike is ordered it will take place April 1.

PREPARING TO STRIKE.

Oigar Makers Union of Chicago Want an Increase of Wages.

CHICAGO, March 7.—The executive committee of the Illinois Cigar Makers union will assemble here tomorrow to draft a circular to be presented to the executive officers of the international union, the headquarters of which are at Buffalo, asking that permission to strike in case the cigar manufacturers should refuse an increase of wages that has been demanded, be given. If this permission is granted and a strike ensues the men will receive a weekly stipend of \$8 each from the international and local treasuries. As there is no association of cigar manufacturers employing exclusively union labor, the employers will be treated within their individual capacity.

There are over 600 shops in this city which exclusively employ union men, and in the majority of these it is thought the men will walk out next week.

VITROL THROWING.

Four Vitrol on the Face of Her Sleeping Sister.

ROCHESTER, N. Y., March 7.—With a face horribly disfigured and burned by vitrol, Matilda Cunningham lies at her home in this city a victim of her sister's jealous spite. All was quiet in the house until 1 o'clock this morning when Mr. Cunningham, the girl's uncle, was awakened by a woman's shrieks. Lena was seen trying to escape from the house. She was followed and arrested.

Matilda was found terribly disfigured. Her forehead, cheeks and nose were in a frightful state, and the eyes were entirely burned away. It is thought the young lady's sight may be saved as she was sleeping at the time the vitrol was thrown. No cause is yet given for the sister's inhuman act.

WORK NO MORE.

Secured a Dues for Her Daughter Through the Seductive Artillery.

PARIS, March 7.—Madame Maisch, the cashier in the Cafe de la Paix, just now bears the title of the luckiest woman in Paris. Today there was paid over to her the sum of \$50,000 representing her winnings on a lucky lottery ticket.

Her husband, who is employed in the office of a steamship company, earned enough to keep the entire family in comfort, but it has been a matter of notoriety that Madame Maisch had conceived herself to the monotonous occupation which she held in order to provide a marriage dowry for her daughter. The latter is only 17 years of age.

The Philadelphia Bank Reopens.

PHILADELPHIA, March 7.—George F. Work and James S. Dungan, the convicted wreckers of the Bank of America and the American Life Insurance company were today sentenced to four and three years respectively, in the eastern penitentiary. Louis E. Pfeiffer, president of the wrecked bank, who pleaded guilty and turned state's evidence, was sentenced two years.

A Gambling Agent.

SEATTLE, Wash., March 7.—Edwin Tonkin, city ticket agent of the Northern Pacific railroad in this city, was arrested last evening for embezzlement. He is \$6000 short in his accounts, and is said to have lost the amount in two months gambling. The Northern Pacific officials intend forcing the gambling houses to disgorge the money.

Governor Winslow Ill.

LANSING, Mich., March 7.—Governor Winslow is very ill and has been confined to his hotel since Wednesday morning. He has had nicotinic for the last two days, and there is strong reason to fear that this is due to a trouble which has not fully manifested itself, but which is likely to prove of the most alarming nature.

Arrested Aborigine Succumb.

SOUTH BEND, Ind., March 7.—"Old Chin," a Chippewa Indian, who was captured when young by a Winnebago, near the Canadian border, and who was afterward held as a slave by different tribes, died Thursday near this place, at the age of 105 years. He could move about only by crawling on his hands and feet and his dried up frame resembled that of a mummy.

He Died Ounce.

KANAKA, Mo., March 7.—Daniel Porter, a negro, sentenced to be hanged on the 20th and who escaped jail Sunday night, was captured yesterday. Porter shot himself when he saw that he was caught. A reward of \$2700 was out for his apprehension, dead or alive. The crime for which Porter was to be executed was for the murder of Edward Smith.

Timber Grabbers Evidently.

OMAHA, March 7.—Government officials are here investigating the affairs of a wholesale lumber firm of Omaha accused of attempting to secure by fraud thousands of acres of timber land in Washington.

An Ohio Town Burned.

WELLSFORD, Ohio, March 7.—Fire last night destroyed ten business houses of this place. Loss, \$45,000; insurance, \$36,000.

A Colorado Senator.

ST. LOUIS, March 7.—Ex-Senator Geo. M. Chilcote, of Colorado, died last night.

PRICE THREE CENTS.

SATIN AND BLUE JEANS.

They are United in a Swell Chicago Wedding Today.

POLAND AND CHINA ARE JOINED

By a Knight of the Royal Stairs and a Scion of Polish Nobility.

CHICAGO, March 7.—Local Chinese society is arraying itself in its finest gowns, white cotton hose and sandals today, in anticipation of the event of the year in high Chinese society. This is the marriage of the Hon. Sam Kestate of San Francisco and formerly of Pekin, where he was the second groom of the emperor's great stairs, and Miss Pauline Louise, a luxuriant woman who came a few years ago from Poland, in which country she was connected by birth with the nobility.

The groom, who is a power in the councils of the heathen Chinese and his country, conducts a clothes purifying establishment in the center of the city, while the blushing scion of the Polish nobility had, up to a few weeks ago when she began to make preparations for the event of today, been earning a modest stipend by chopping hash in a restaurant adjacent to the aforesaid establishment.

Two hundred invitations, printed in Chinese on Belfast linen cards and enclosed in perfumed envelopes, have been issued to as many members of the Chinese colony. The bride will be attired in white satin, while the groom will wear a negligee costume of blue jeans. Two Chinese chefs will have charge of the menu, which it is promised will contain some things both fearful and wonderful.

The bride is a catholic and the groom a congressionalist, and as a consequence there will be a double service. The contract has been drawn up by which it is provided that of the offering of the notable union one-half shall be brought up in each faith.

A Complaint That Deserves Attention.

John T. Woodside, who lives in the Union block on First avenue west and Fourth street and is owned by ex-Alderman Mannheim and others, is showing a bottle of water taken from his faucet that is simply indescribably filthy. He also states that several times during the incumbency of Mr. Mannheim in an aldermanic chair he notified health officer Goffe of the filthy condition of the yard behind the building, of the gutter in front of and of the fact that sewer gas regularly percolated into the building from the sanitary sewer in the street. None of these appeals and notifications had an effect because Mr. Woodside alleges, of the aldermanship of Mr. Mannheim. Shortly after making his complaint a daughter of Mr. Woodside died of typhoid fever.

DIED.

Died of typhoid fever, yesterday, 5 p. m., at his residence, 1110 West Third street, George H. Thompson, aged 31 years. Mr. Thompson was a native of Ontario, Can., but has resided in Duluth a little over two years, and during that time had formed a large circle of friends. Much sympathy is felt for Mrs. Thompson in her sad bereavement. The funeral from residence on Sunday, 3 p. m.

In Lower Court.

It was a busy day at the municipal court. Four drunks were disposed of. Two paid fines and the others went to county jail. William Bradley who made an assault on Thomas Graves at Collier's saloon, was fined \$33.14. Thomas Burke was brought in for examination on two charges, first of larceny in stealing flour from a box car of the St. Paul & Duluth road, and again for burglary for breaking into the car. His bonds were set at \$800 for both offenses and in default was committed. James Moran, who stole an overcoat off from a dummy in front of Oppel's store got sixty days in jail. William Fox and William Pusley, arraigned for fighting on the street, will be tried March 9. Tom McCall was committed for vagrancy.

Easily Satisfied.

A couple of young men well known about town got into a dispute over a pool game this morning at the Spaulding. They spontaneously rushed into the hallway leading to the bathroom. One knocked the other down and kicked him a couple of times and in less than a minute they were both playing pool again as contented as lambs. This beats Sullivan's record.

Exclusive Handlers of Strictly
TAILOR MADE CLOTHING.

THE WORLD has been compared to a stage, and we certainly have to dress for the parts we play in it. An actor who is not properly attired for his part cannot expect to win popular approval. He is pretty sure to find out that he is making a mere musing quere of the performance, and he has only himself to blame if the curtain is promptly rung down upon him. It is very much the same in real life—if your attire is not consistent with the part you play in it your performance is likely to be a failure. Whatever your part may be, we can suitably attire you for it, and you will be in no danger of having the curtain rung down upon you when you are wearing one of our tailor-made suits, spring overcoats, or trousers. They are the production of our most skilled tailors. We continue to offer bargains in all heavy-weight suits and overcoats. Who's your hatter? We are exclusive agents for Youman's Celebrated Hats.

FREE TRADE FOR CANADA.

The Government Announces it
Will Go That Way.

CAUSES GREAT EXCITEMENT.

And Manufacturers Claim They Will
Do All They Can Against
the Government

OTTAWA, March 9.—An article in the Star, the conservative organ, says it is authorized to announce to Canadian manufacturers that they must prepare for free trade, as the government cannot maintain a protective tariff longer. It has caused a great sensation and some disturbance in commercial circles. This is believed to be the outcome of Thursday's elections. The manufacturers threaten to defeat the government if protection is abandoned. The latest corrected summary of the result of the election gives the conservative 120, liberals 92—a government majority of 28.

The returns are so unreliable that it is probable when corrections come in it will be found that the liberals have carried more seats than are credited to them at this time.

The cabinet will reassemble in a day or two, and active preparations for the work of the session will be commenced. Parliament will meet on Wednesday, April 23, to enable the house of commons to elect a speaker, and the formal opening will take place the following day.

THE STORM.

It Continues in the East and Tears Telegraph Wires Endways.

CHICAGO, March 9.—Dispatches from Minnesota, Northern Iowa, Central Illinois, Southern Wisconsin and Eastern Nebraska, report the severest snow storm of the winter. Saturday and Sunday a regular blizzard was blowing and the snow was badly drifted. Many trains were running behind time. St. Cloud, Minn.—The storm—yesterday was very severe. Snow is drifted in places from five to twenty feet deep. Moorhead, Minn.—Snow has fallen three to five feet deep on the prairie and in many localities drifts are ten feet deep.

Winter, Iowa.—During Saturday night and Sunday snow fell to the depth of twelve inches. It is badly drifted. Brainerd, Minn.—Snow fell rapidly all day Sunday and the wind blew very hard. Trains were mostly behind, and had the wind continued another day there would have been a big wreck. Crookston, Minn.—Great Northern trains were all behind from the west yesterday and a heavy snowfall and drifting is reported all along the line.

St. Paul.—The storm of yesterday has continued to move easterly and wires are working badly. It is not expected that night trains will be delayed between here and Chicago. Burlington trains in Iowa are nearly all reported behind time.

WORKINGMEN BEWARE.

Chicago Has Enough Laborers and Many to Spare.

CHICAGO, March 9.—Despite the warnings that have been printed throughout the country, unemployed men and boys from almost every section of the continent, continue to pour in to the city, in anticipation of finding something to do, and as a result, the situation is getting absolutely serious. The number of people out of work in this city can scarcely be estimated, and private residences are besieged and pedestrians importuned by unfortunate strangers, the majority of whom are of a much higher order of appearance than the genus tramp, but who find themselves literally without a crust to eat or a place to lay their heads.

Extraordinary as it may seem, Chicago with all its wealth and charities, has not a solitary place where a hungry man can get a loaf of bread or a cup of coffee, or even where he can find a rough board place to rest upon. Hundreds, if not thousands of men are traveling the streets through the night with the thermometer at zero, or the skies pouring down sleet, and knowing not where to get a bite to eat when daylight comes again.

Without history fails to repeat itself, a carnival of crime and possibly bread riots to boot, are the outcome of this condition of affairs. Meanwhile, the fact cannot be too strongly emphasized that men without employment are better off almost everywhere than in coming to Chicago.

ONYX IN MISSOURI.

Discovered in Caves in Pulaski and Crawford Counties.

ST. LOUIS, March 9.—For some time reports have been in circulation concerning wonderful onyx deposits in Pulaski and Crawford counties in this state. A syndicate of St. Louis capitalists was formed and in investigations led to the securing of an option on a large body of land in which there are caves containing the onyx.

Cuy H. Reynolds, of Rutland, Vt., proprietor of the only onyx polishing and dressing works in the country, visited the deposits and today pronounced them far beyond what he even imagined existed. He explored a cave for a distance of two and a half miles. A company was formed, the first week with \$300,000 capital stock. Mr. Reynolds says he will transfer his entire plant to St. Louis.

Political Clouds in Hawaii.
SAN FRANCISCO, March 9.—A prominent merchant from Honolulu brings news of a conspiracy formed by Col. Ashford to seize the Hawaiian government and make the queen a mere figurehead. The scheme was similar to the one engaged in by Wilcox four years ago. The Hawaiian minister learned the full details of Ashford's scheme, and arranged to have marines landed from the Mohican and Iroquois in case any trouble should be made by the conspirators. The uncertainty of political affairs on the island is causing great uneasiness.

Wants a Negro Exhibit.
WASHINGTON, March 9.—Hon. John H. Smith, ex-United States minister to Liberia, has written a letter to President Harrison asking that an officer of the World's fair for the negro race be appointed and that a place be made for a display of negro industry. Agricultural products, art and scientific achievements, inventions and educational developments shall constitute the display.

UPRIGHT MR. COMSTOCK.

How Girl Writers of Erotic Books Would Advertise Their Wares.

New York, March 9.—Anthony Comstock announces in his annual report as agent of the Society for the Suppression of Vice, just issued, that he is occasionally requested by the writers of salacious literature to act as press censor of their productions before publication. In one case, after securing the expurgation of objectionable passages in a "spicy" novel, he virtuously refused to lend himself to a shrewdly suggested, by the young woman who wrote the book. This is his version of the incident.

"A young woman in June last called at our office, saying she had written a book to advertise herself as an actress, intending to outlive Mrs. Langtry. She had taken her manuscript to a printer to have it published, but because of its salacious nature, he refused to publish it and referred her to our office. She proposed, as a matter of business, to pay us to allow her book to be issued. She showed the law, and proposed to strike out the unlawful matters, and then brazenly wanted to know we would not attach her book just a little to make it sell. Receiving a negative reply, she then offered to pay liberally for this assistance, all of which was declined and her book was not published."

Mr. Comstock has made a synopsis of the crimes having their origin in gambling. This is the summary: "One hundred and twenty-eight persons were either shot or stabbed over gambling games; 4 were stabbed and 5 shot at poker; 12 stabbed and 24 shot over the game of craps; 28 were stabbed and 55 were shot over the gaming table. Sixty-eight persons have been ruined by gambling and betting upon horse racing.

Among the crimes committed to get money to gamble with are 2 burglaries, 18 forgeries, and 85 embezzlements, while 32 persons holding positions of trust have been ruined by gambling. The enormous sum of \$2,398,372 is shown by this same report as the proceeds of these embezzlements and defalcations. To these must be added the long list of thefts, robberies, embezzlements, larcenies and default in bank and other financial obligations to persons especially interested."

MINERS RESUME WORK.

Will Supply Enough to Fill all Former Contracts.

PITTSBURGH, March 9.—The strike of miners in the Moonongahela valley, which has been in progress since New Year's day, ended today in a victory for the men, all of whom returned to work. Sunday and Monday 900 men were involved in the strike. Their demands were three and one-half cents per bushel for mining in the first three pools, and three cents in the fourth, or an average of one-half cent per bushel. The operators have given way after a struggle lasting about two months, and to the fact that coal stacks for contract delivery in the lower ports are short, while should they default in delivery heavy damages would result.

The conceding of the advance will cost the operators in the aggregate \$1500 per day, but they will reimburse themselves by increasing the price of the coal to all Southern consumers except those having contracts.

NEW AIR SHIP.

The Passenger Carrier to be Constructed Immediately.

CHICAGO, March 9.—Pennington, of air ship fame, means to have completed arrangements for the construction of a large air ship by the Mount Carmel company. The exposition building has been leased for three months. The south half of the building is being enlarged to accommodate the air ship. The building will be completed. A large quantity of aluminum has been ordered from Pittsburgh for the purpose. Inventor Pennington declares that within sixty days the air ship will be ready for its trial flight and a few passengers will be carried on its first trip to New York. A thorough test will be made on the lake front after it has been finished.

PREFER ARBITRATION.

One-Third of Chicago Carpenters Attend the Meeting.

CHICAGO, March 9.—Arbitration will again be resorted to by the carpenters of Chicago before the final step is taken toward a strike. This was the feeling of the great mass meeting held at Battery D yesterday afternoon. About 2000 carpenters were in attendance. To prevent blame being attached to the carpenters for the strike, they have agreed to arbitrate until March 23 to decide to their demand for arbitration.

Tennessee Rising.

NASHVILLE, Tenn., March 9.—There has been a most phenomenal rise in the river this morning and the gauge reads forty-six feet, a rise since Friday morning of twenty-five feet. Much damage has been done to the levees and many people have been driven from their homes and goods in warehouses have suffered.

Displaced and Burned.

HAVANA, Ill., March 9.—The south-bound express, due here early yesterday morning, was drenched by a broken rail and the entire train burned. One person was killed outright, several injured and a number burned. The body of Miss Ellen Woods, whose remains were brought here from Chicago for burial, was consumed. Fireman Siddle was caught in the wreck of the baggage car and tender and burned to a cinder.

Venice in Miniature.

CHICAGO, March 9.—The board of construction of the World's fair, committee will have a large pier run out into the lake, and at the end a Venetian village will be built and used for restaurants and resorts. Scores of little steamers and ornamental gondolas will be used to convey visitors through the Venetian streets.

Pioneer Educator Goes.

GRAND FORKS, N. D., March 9.—Professor Homer B. Sprague has tendered his resignation as president of the university of North Dakota. President Sprague has been one of the best educators of the Northwest, and is especially noted for having conducted state educational matters through the stormy territorial period up to the present.

Deadly Trichina Springs.

MARSHALTON, Iowa, March 9.—Two more of the Ida county Germans died yesterday from eating pork infected with trichina. This is the third death so far. About a dozen of the sick are said to be recovering.

NEWS FROM OVERSEA.

French Military Depots to Prepare for Struggle.

A LION-TAMER'S NARROW ESCAPE.

Twenty-Five Mile Ships for the Cunard Line; Live Foreign Topics.

PARIS, March 9.—It has been learned that ever since the first outbreak of irritation at the visit of ex-Empress Frederick to this city work has been pursued with redoubled activity in the government military and depot. New hands have been put on in the cartridge works to complete supplies as speedily as possible in obedience to orders issued by the minister of war. It is customary at this season of the year to prepare ammunition for the spring campaign, and in consequence extra men are always put on at the various arsenals. The well known fact that these exceed in number the additional employees in former years, has given rise to the belief that the cabinet has instructed the war minister to make useful dispositions for an event for which it would be suicidal not to be prepared. The minister of war has also issued orders for a rigid inspection of railways, that concentrate along the Franco-German frontier, and schemes of mobilization are discussed daily at army corps headquarters.

The hope is everywhere entertained that these preparations are precautionary only, but the French people view, with great satisfaction, the immense advances made by their military authorities in the great work of being ready for whatever may come.

FOOLED WITH LIONS.

A Scene in "Nero" That Will Be Left of the Boards.

PARIS, March 9.—A terrible scene, by which a noted lion tamer will probably lose his life, was enacted in the Hippodrome this morning. The spectacle of "Nero" is being prepared at the hippodrome, and one of the features of the show, as it has been proposed, is an attack by a number of lions on the figures arranged in the arena so as to represent human beings.

Seats, the lion tamer, had just concluded his drilling training of six large lions for this performance and was driving them back into their cages when he suddenly refused to re-enter. Seats managed to escape the five lions and then turned his attention to the rebellious animal, which had taken refuge in a cage. Seats armed himself with a lance and tried to dislodge the refractory lion, but he was so badly tripped and lost hold of his lance, the weapon rolling several feet away. Before he could regain possession of the lance the angry lion sprang upon the unfortunate man, hurled him to the floor and mangled him in a horrible manner.

Seats' cries brought another lioner to the scene. The latter caught the lion by the mane and gallantly attacked the lion, inflicting a severe wound with the weapon in the lion's forehead. Seats is in a dying condition.

RELIGIOUS NEWS.

Concerning the Agreement to Disagree in Episcopalianism.

LONDON, March 9.—The prelates and clergy of the protestant episcopal church are beginning to manifest considerable anxiety over the steady growth of the reformed episcopal denomination which was originally transplanted to the United States. During the past twelve months the reformed episcopalians have been engaged in revivals in many of the principal cities of the country as well as in rural districts of Worcestershire, Gloucestershire and Oxfordshire, and, as a result, have been successful in drawing large numbers of recruits from the fold of the established church.

Recently, as though inspired from some high authority, the English episcopal religious workers have made an all united onslaught on the new denomination, and especially upon the Right Rev. Bishop Alfred S. Richardson, who is alluded to almost every week by a paper under the direct patronage of the Archbishop of Canterbury, as a so-called bishop of the reformed episcopal church who is altogether repudiated by every member of the English church. These attacks have not, Bishop Richardson, on his part, and he has retorted in an open letter which has created a sensation in religious circles, and has also afforded considerable interest to members of the dissenting denominations who view with interest any trouble in the established church which, in their opinion, ought to be disestablished.

In this letter Bishop Richardson says, among other things, "permit me to say that every bishop of the reformed episcopal church has been validly consecrated in the direct line of the apostolic succession; that all of them are prepared to defend this position anywhere and at any time; and that any of the highest ecclesiastical authorities in England, including some of the bishops and most of the church papers would be found quite ready to admit this claim."

"All we desire is a fair field and no favor, and we have no fear as to the verdict of the English people. We do not claim the right to force our men on the established church, as we would not permit their men to officiate for us without episcopal license, but spiritually we claim equality, and if necessary, we propose to defend it."

ENFORCED HOSPITALITY.

Prince and Princess of Wales Close Social Season.

LONDON, March 9.—By command of the queen, the prince of Wales held a levee this afternoon at St. James palace. Despite the unfavorable weather, there was a large turnout of the aristocracy owing to the fact that the event was the last of the season. The prince and princess made all arrangements to leave on the 21st for Monte Carlo, where he will spend several weeks with Baron Hirsch and Sir Frederick Johnston.

The prince was assisted in receiving by the princess, the duke and duchess of Cornwall, the duke and duchess of Devonshire, the duke and duchess of Albany, the duke and duchess of Gloucester, the duke and duchess of Kent, the duke and duchess of Cambridge, the duke and duchess of Edinburgh, the duke and duchess of York, the duke and duchess of Sussex, the duke and duchess of Cornwall, the duke and duchess of Devonshire, the duke and duchess of Albany, the duke and duchess of Gloucester, the duke and duchess of Kent, the duke and duchess of Cambridge, the duke and duchess of Edinburgh, the duke and duchess of York, the duke and duchess of Sussex, the duke and duchess of Cornwall, the duke and duchess of Devonshire, the duke and duchess of Albany, the duke and duchess of Gloucester, the duke and duchess of Kent, the duke and duchess of Cambridge, the duke and duchess of Edinburgh, the duke and duchess of York, the duke and duchess of Sussex, the duke and duchess of Cornwall, the duke and duchess of Devonshire, the duke and duchess of Albany, the duke and duchess of Gloucester, the duke and duchess of Kent, the duke and duchess of Cambridge, the duke and duchess of Edinburgh, the duke and duchess of York, the duke and duchess of Sussex, the duke and duchess of Cornwall, the duke and duchess of Devonshire, the duke and duchess of Albany, the duke and duchess of Gloucester, the duke and duchess of Kent, the duke and duchess of Cambridge, the duke and duchess of Edinburgh, the duke and duchess of York, the duke and duchess of Sussex, the duke and duchess of Cornwall, the duke and duchess of Devonshire, the duke and duchess of Albany, the duke and duchess of Gloucester, the duke and duchess of Kent, the duke and duchess of Cambridge, the duke and duchess of Edinburgh, the duke and duchess of York, the duke and duchess of Sussex, the duke and duchess of Cornwall, the duke and duchess of Devonshire, the duke and duchess of Albany, the duke and duchess of Gloucester, the duke and duchess of Kent, the duke and duchess of Cambridge, the duke and duchess of Edinburgh, the duke and duchess of York, the duke and duchess of Sussex, the duke and duchess of Cornwall, the duke and duchess of Devonshire, the duke and duchess of Albany, the duke and duchess of Gloucester, the duke and duchess of Kent, the duke and duchess of Cambridge, the duke and duchess of Edinburgh, the duke BEST PRACTICAL NAVY

Will be America's When the Present Cost is Doubled.

BETTER THAN EVEN ENGLAND.

Twenty-five War Vessels to be Added in the Next Two Years.

WASHINGTON, D. C., March 10.—The American navy has reached what is called the middle point of its development. To complete it and put it upon the footing of a first-class power would require an expenditure of about \$35,000,000 more. This far the government has expended or authorized to be expended \$70,000,000. This represents a round sum of \$135,000,000 for a complete navy. The interest on this amount at 2½ per cent, practically the interest paid on government loans, represents the cost to this country of its present navy.

Secretary Tracy said today there would be added from six to nine more battleships, each of 10,000 tons. These would cost \$5,000,000 each. This is as cheap as they can be built in England. He would duplicate the "New York," which would cost \$3,500,000. He would add from four to six harbor defense vessels, costing each \$2,000,000, and twelve torpedo boats, each costing \$125,000. This would make a navy the superior of any nation, not excepting even England, in point of availability and practical qualities.

We have completed and authorized 41 warships. These are all vessels of modern class and will be armed beautifully. In New England there are being built at Bath a ram and two gunboats, at Boston cruiser No. 11, at Baltimore cruiser No. 9 and 10, the Maine and cruiser No. 7 are being built at the New York yard, the Texas and cruiser No. 6 are being built at Norfolk, the Monterey, cruiser No. 6 and the Oregon at San Francisco, the New York, cruiser No. 12, the Massachusetts and the Indiana are being built at Cranston, and a practice vessel is being built at Elizabeth. This makes thirty-three ships in all that are now being built and will be turned out within the next two years.

TO ORGANIZE PROTESTANTS. Zealous St. Louis Preachers Try to Organize Politically.

St. Louis, March 10.—The publication last night of the formation of a league of protestant preachers to oppose the political schemes of catholicism has created a great sensation here, and the papers are full of the matter.

A secret meeting of the protestant ministers of the city was held Monday at the Second Baptist church, of which Rev. J. H. Ford is pastor. The object was to devise some way to make the influence of the protestant church felt in the city, and resist the encroachments of catholicism. Every minister present was solemnly pledged to secrecy. Dr. Ford, when approached for information, declined to say anything about the matter. Nine ministers of different protestant denominations who are known to have been present on being asked to tell what was done begged to be excused, but all admitted that they were present, and that they had been at such meeting.

Every protestant denomination was represented excepting the episcopal church. Several prominent members of this denomination admitted they had been invited to attend such a meeting, but professed not to know who invited them or at least who were the organizers of the movement. From these it was learned that the object of the meeting was to make the protestant church felt in the city, and resist the encroachments of catholicism.

Dr. Holland of St. George's, said he was called on by a prominent minister who labored long and hard to get him to attend the meeting. The argument was that the protestant church was organized and such a compact body and so much under the control of the priests that they vote in a body, and always protect their own interests, and that protestants should do the same.

Object to the Nude in Art. PHILADELPHIA, March 10.—A committee of ladies, representing over 500 of the Christian women of Philadelphia, have presented to the directors of the Academy of Fine Art, a protest against the display in the academy's annual exhibition, just closing, of twelve pictures, which the committee describes as flagrantly indecent, and as constituting an offense to morality. The pictures referred to are "Athena" and "Four studies by Alex. Harrison," "Water Lilies" and "Girl at the Bath," by W. L. Dodge; "Painting and Poetry," "An Eclogue," "Ymph" and "Evening" by Kenyon Cox, and "The Nocturnal Apple Boughs" and "The Brookside," by W. H. Low.

Let's All Join the Alliance. HARTFORD, Conn., March 10.—The practical working of the farmers alliance in Kansas has come home to a Hartford investor with a forcible illustration. He recently sent a coupon for collection and received from President Lawrence of the West Side National bank of Wichita, Kan., this letter:

"WICHITA, March 3.—DEAR SIR: Mr. B. refuses to pay the coupon you sent me for collection—\$60. He says he has joined the alliance and has stopped paying debts! Shall we return the coupon?"

Canadian Pacific's Globe Circles. CALGARY, March 10.—The Canadian Pacific Railway company's new steamship Empress of India arrived here yesterday on her voyage around the world. She will remain here until tomorrow to give the passengers an opportunity of viewing the points of interest in the vicinity.

Chicago Majority Goes Begging. CHICAGO, March 10.—Judge Gresham has declined the nomination of the city's citizens meeting for mayor of Chicago. Ex-Senator Farwell has also refused to allow his name to be used.

Died at Sea. OTTUMWA, Iowa, March 10.—Senator P. L. Ballingall, president of the Coal Palace company, died at sea on the 7th and was buried in Hong Kong.

Notice to Claimants. CLAN STEWART will meet tomorrow evening at the old hall in Hayes block. A full attendance is requested.

ALEX. S. WILSON, Chief.

SICKNESS PREVALENT.

Divers Diseases Said to be Thriving Throughout the North-West.

CHICAGO, March 10.—There has been more sickness and mortality throughout the Western states during the present winter than ever before in the history of this country. Even the record that was made a year ago by the grip has been surpassed, and from every quarter come reports that bronchitis, pneumonia, diphtheria and scarlet fever, are producing their victims by the tens of thousands.

In this city the mortality rate has shown a large increase during the past six weeks, and the majority of the members of the medical fraternity say that they are nearly worked to death. Nearly every day brings an announcement that some prominent man has been stricken down, while the cases of people less prominent, who do not figure in the newspapers, are legion. The police force, the departments of the city, the world's fair, the newspaper staffs and the members of institutions employing considerable help, are all more or less affected.

Diphtheria has been raging in Milwaukee and special precautions have been found necessary by the health authorities to prevent it from becoming epidemic. A dispatch from Colorado says that the sickness and mortality in that state since November has been without precedent. A dispatch from Butte City, Mont., says that last week the average number of deaths from pneumonia was thirty a day, and that there are no signs that the violence of the epidemic is subsiding.

WANTS TO DIE.

Crawford Declares Against a Stay of His Execution.

DECATUR, Ill., March 10.—Bill Crawford, who will hang Saturday for the murder of Mrs. Mathias Weeks, has again distinguished himself. A motion for a stay of execution was delayed because the defense had no money. Saturday they succeeded in getting the necessary cash and Judge Vail ordered Crawford to be brought into court. Crawford also declared against it and said that he would try and kill the first man who came into his cell with the intent to take him to the gallows.

Attorneys visited the condemned man, and all were in vain. Crawford said that he was guilty and that everyone knew it. He was sentenced to hang and did not propose to interfere with the proceedings. An appeal to the supreme court would only delay the execution, and he wanted it to be over with.

DESERVE PUNISHMENT.

Striking Clockmakers Raid the Store of a Jew.

JAMAICA, L. I., March 10.—The store belonging to a Polish Jew named Greenbaum was raided yesterday by twenty-five of his countrymen, striking clockmakers from New York. Greenbaum is a Jew and a New York manufacturer. The strikers broke open the doors, destroyed the furniture of the place and \$500 worth of goods on which they put a lien. Several severely beating Greenbaum and his wife.

Greenbaum's 4-year-old child was held up and then a New York crowd, of Greenbaum's brought a crowd, Rango was arrested. He was identified as the one throwing the vitriol.

SPOONER NOT WILLING.

Will Take No Public Office But Will Remain in Wisconsin.

NEW YORK, March 10.—John C. Spooner, of Wisconsin, whose term as United States senator expires March 4, is here. Speaking of the various rumors that have been circulated concerning his own appointment as a justice of the supreme court or to the president's cabinet position, ex-Senator Spooner said: "I am now a candidate for no public office. I propose to go back to Wisconsin and to continue to make my home there. I want nothing within the gift of the president."

GREAT SCOTTY!

Shoot People Through the Air by the Most Approved Cash Style.

CHICAGO, March 10.—The Davy Electric Suspension company, to build and operate a system of suspended cars and for the transportation of freight and passengers, has been incorporated with a stock of \$100,000. The promoters claim it will revolutionize transportation for both freight and passengers. It is modeled after the same plan as the cash delivery devices in stores.

Wiggins Prophecies.

OTTAWA, March 10.—Professor E. Stone Wiggins, the notorious Canadian weather prophet, after the calm following the last storm, said: "The great storm is at this moment on the North Atlantic and approaching the American continent a much greater storm than any that will happen during the remainder of the year or during 1892. There will be no earthquakes until Aug. 17, 1904, but this one will rock the earth's surface from Philadelphia to Prince Edward Island."

Western Mail Burned.

AMSTERDAM, N. Y., March 10.—A baggage car containing eighteen sacks of letters and thirty-five sacks of newspapers caught fire near Cranston on the New York Central last evening. The car was detached from the train and brought to this city and the fire extinguished. Most of the mail was destroyed. The burned mail was for Buffalo, Erie, Lockport, Cleveland, Toledo and points along the line of the Chicago, Milwaukee & St. Paul railroad.

A Revival Boycott.

MARTINSVILLE, Ill., March 10.—Patty & Morton, who have been running a saloon here for ten months, have closed. A petition of 140 women and men is presented to the city council, but no attention was paid to it. One of the proprietors said that before the revival meetings began they made \$700 which they have since lost.

Steamer Reported Lost.

SEATTLE, Wash., March 10.—The steamer Bukey, bound for Edmonds, with twenty passengers and crew, is reported lost in Puget sound between that port and Appleton cove. The passengers are mostly women and children on an excursion. The Bukey was loaded with vegetables, and a large quantity of these have been washed ashore.

NEWS FROM OVERSEA.

The English Labor Program for Parliament.

RUSSIA AND SCANDINAVIA.

The Former Looks for Further Aggrandizements; Foreign Notes of Interest.

LONDON, March 10.—There is no doubt that the government has a labor program, but it is by no means of the revolutionary character suggested in certain quarters. For the present it may be said to be confined to Mr. Matthews' factories bill and to certain vague and undefined intentions in reference to the shortening of hours in dangerous and exhausting employments. Some two or three cabinet ministers are prepared to go a great deal further in regard to the general question, and are rather fond of private conversation of airing socialist views on the subject. But there is a sufficiently large old-fashioned element among their colleagues to make it certain that while the cabinet is constituted as at present any "new departure" must interfere in only a moderate degree with established notions.

Meanwhile, however, the reports of the conservative candidates in different parts of the country to the Tory head-quarters in London point more and more strongly to the fact that it is upon the labor question that the next general election will be fought. A letter from one of these gentlemen was received at headquarters today, in which the writer distinctly states that if the government have nothing to propose with regard to strikes, sweating etc.—a rather wide field—he sees no chance in the constitution of the Tory party.

ROYAL ANNIVERSARY.

Prince and Princess of Wales Celebrate Their Twenty-eighth.

LONDON, March 10.—The Prince and Princess of Wales are today celebrating the twenty-eighth anniversary of their marriage. It was on March 10, 1863, that the heir apparent to the throne was married to the daughter of the duke of Cambridge. The prince is now thirty-two years of age, and the princess is twenty-eight. They have four children, three sons and one daughter.

LIBERAL JUDICIAL BILL.

Of Course the Measure Could Not Carry at Present.

LONDON, March 10.—In the house of commons today there was an animated debate on the motion for the second reading of the bill introduced by Charles S. Cairns, the liberal member for Ashburton, providing that hereafter, justices of the peace instead of being appointed by the government should be elected by the people. This proposition, if adopted, would not only deprive the government of an immense amount of patronage, but it would work an entire revolution in the minor judiciary system of the country.

The motion for the second reading was vigorously opposed by the government, and although the bill was supported by the liberal and Irish benches, it was defeated by a substantial majority.

BLIZZARD IN ENGLAND.

Southern England Experiences a Typical Western Storm.

LONDON, March 10.—The blizzard in the south of England continues. All the railroads of Kent and Sussex are completely blocked. The hurricane which accompanied the storm piled snow drifts on all sides, stopping all traffic on the railways and post roads. Two or three trains of passengers were snowed up and the passengers were not rescued until this morning. The rescued passengers suffered terribly from cold and hunger.

RUSSIA WATCHING.

She Wants a Part of the North Land of Scandinavia.

ST. PETERSBURG, March 10.—The tension of affairs caused by the political situation in Scandinavia is keenly watched here. Russia has long been waiting for an opportunity to incorporate the Russian empire the country lying beyond its present northwest frontier thus gaining a free Atlantic seaboard, and enabling Russia to make Oslo in Norway, a naval port of equal strategic importance to Vladivostok near the northern limit of Korea on the sea of Japan, by joining the gap now separating the railway systems of Russia and Scandinavia.

PROBABLY WOULDN'T PAY.

Will Oppose the Canadian Pacific Mail Subsidy.

LONDON, March 10.—The postal service estimates proposing to devote the sum of £35,000 to a mail packet service between Vancouver and Japan will be opposed to in the house of commons by J. Henicker Heston, member for Canterbury, who recently returned to England after a long visit to the United States and acting in the interests of a system of one-cent postage.

Short and Sharp.

NEW YORK, March 10.—Jimmy Hagen of Philadelphia and Tommy Danforth of this city, lightweight, fought a glove fight at Hoboken last evening without interference. The contest lasted one minute and forty-five seconds and resulted in a victory for Hagen.

FOOD EXPOSITION.

National Food and Health Exhibit to Progress in New York.

NEW YORK, March 10.—The national food and health exposition opened in the Lenox Lyceum this morning. Last night there was a gathering of promoters of the enterprise in the auditorium of the Lyceum at which an address of congratulation was delivered by Chauncey M. Depew. The exposition is under the directorship of A. B. de Frece. Among the board of honorary directors are President Harrison, Senator Evans, John Noah Davis and F. R. Coudert. The exposition very much resembles that held in London seven years ago and has a number of interesting features. A series of afternoon lectures on cooking are to be delivered by Mrs. S. F. Rorer, principal of the Philadelphia Cooking school. There is also a Chinese exhibition of fruit products cooked and served by Orientals in native costumes. Native Chinese, Japanese and Singalese women serve tea in native booths; there is an elaborate exhibition of the growth, preparation and consumption of cocoa, and biscuits are baked and artificial ice made by a large force of workmen. Another feature of the exposition is the \$30,000 soda fountain of the Paris exposition.

SARA'S ECCENTRICITIES.

She Foregoes Her Favorite Beverage on Superstitious Grounds.

NEW YORK, March 10.—Sarah Bernhardt has cabled to Paris for two more snakes for use in her production of "Cleopatra." The two reptiles that the diva Sarah caused to be captured in the forest of Fontainebleau, which had been tamed by the famous Indian serpent charmer Muchutsee Ben, succumbed to the rigors of an American winter last week after having the storm of the Atlantic and the scrutiny of the custom house officers. Sarah takes their unexpected demise as an omen of ill luck and her grief at the loss of her darling has taken the remarkable shape of abstinence from coffee. It is only when in an extremely depressed condition that Sarah forgoes her favorite beverage.

PINKERTON'S PAUL PRY.

Conjectures Caused by Their Presence in Force at Ohio's Capital.

COLUMBUS, Ohio, March 10.—Considerable of a sensation has been caused by the presence in the city of a number of Pinkerton detectives. Numerous theories have been advanced to account for their presence here.

One theory is that the detectives are looking to the defeat of the bill against the importation of police in the time of labor and order troubles. Last night a servant girl at the American hotel discovered that a hole nearly two feet square had been cut in the floor of a room directly over the one occupied by Representative McClure of Putnam county. The room with the hole cut in the floor was engaged by W. G. Maurice of Chicago, supposed to be a detective. Some startling developments are expected in legislative circles in the next day or two.

He Advertised for a Wife and Got One.

MERRIDEN, Conn., March 10.—The marriage of Miss Mary Fountain, daughter of William Fountain, a well-known citizen of this city, to William Raymond Ralston, of Albany, is the subject of much gossip here. About a month ago Miss Fountain saw the following advertisement:

"Gentleman in good position in society, good looking, and who has a lucrative business, desires to correspond with a good looking young lady, with fair mental qualities, with a view to matrimony. Money no object. Mary thought about the 'ad' a great deal. A correspondence was begun, and last week the man turned up in town. The day after his arrival he called on Miss Fountain. It was a case of love at first sight, and arrangements were at once made for the marriage.

To Cross the Ocean in a Fifteen-Foot Boat.

BOSTON, March 6.—Capt. Josiah W. Lawler, who successfully navigated the yawl boat, Neversink from New York to the Paris exposition, says he is to have a boat built about 15 feet long, over 12 feet wide, and will start from Boston about the middle of June next for Europe in this craft. He challenges Capt. Wm. Andrews, formerly of "Dark Secret," to a race across the Atlantic from Boston to Land's End or Gravesend in a similar boat, each skipper to be entirely alone, and the prize to be the losing boat or its equivalent in money.

And the Association Kicks.

CLEVELAND, March 10.—Last night a deal was completed between Albert L. Johnson, of the association, and J. Palmer O'Neill, of the National league, whereby the former sells out for \$30,000 cash all his property in baseball. This includes the contracts with Cincinnati and Cleveland players, the ground leases in both cities and all other things connected with the national game. The league at once takes possession of all association property.

Hearst's Successor.

SAN FRANCISCO, March 10.—Balloting for the successor of United States Senator Hearst, deceased, began in the legislature today. Republicans have 30 votes and Democrats 20. The present candidates are Morris M. Estee, ex-Congressman Charles O. Felton, M. H. DeLong, George H. Bonebrake, ex-Governor George C. Perkins, Gen. N. P. Chipman and ex-Senator A. P. Williams.

Prex as a Shooter.

BALTIMORE, March 10.—"Bonjies," the pious President Harrison has selected for his vacation, is well fitted for shooting purposes. Small game abounds and any one can bring down a duck if he has half an eye. The President has a record of forty-eight ducks killed in one day during his last trip. The blind from which he shot has since been christened "Harrison's battery."

Sunset Cox's Statue.

NEW YORK, March 10.—The statue of S. S. Cox, which the letter-carriers of this country are having made, has been finished in clay by Miss Louise Lawson and cast in plaster. Today is the last day of inspection of the statue at Miss Lawson's studio, No. 734 Tenth avenue. The statue will be of heroic size in bronze, and will be unveiled in Central Park on July 4.

Of Sporting Import.

CINCINNATI, March 10.—A special meeting of the schedule committee of the American association opened at the Burnet house today with a full attendance. It will reach the league meeting of the association and will settle up all the business bearing upon the season of 1891.

New Duluth Stock.

Most desirable real property, Oneota lots and inside business property at low prices in exchange for New Duluth Land company stock at \$150 per share. C. E. LOVETT & CO.

MAY DEFEAT THE ROAD.

Greed of Property Owners Injures the Incline.

AN EXORBITANT DAMAGE CLAIM.

Stockholders of the Highland Co. Sore Over the Late Awards of Damages.

When the Highland Improvement company was organized about two years ago, it was agreed to give the street railway company \$200,000 bonus for building an incline road up Seventh avenue west. As a matter of fact the Highland company has turned over to the street railway company amounts representing \$215,000 in stocks and property.

The Highland company, however, further agreed to secure the Street Railway company a right of way up the hill and to hold the latter free from all damages to buildings and property owners. The latter part of the contract has not yet been carried out by the Highland Improvement company nor is the company now ready to pay the \$32,000 to property owners lately awarded to them by the commissioners in condemnation proceedings.

The Herald's informant, a member of the company by the way, states that when the agreements were signed, no one anticipated that many of the abutting property owners would not ask any damages. Some of the property owners have promised to contribute toward the bonus for the street railway company. "Now they are holding back, are getting exorbitant sums for damages and are expecting the incline road to be built just the same. The company has stood several times on the verge of dissolution, having been put under great bother, expense and delay, without being able to sell property until the line about the incline. Now the street car company come to us and demands that the Highland company put up a bond that it will pay these damages to property owners before another tap of work is done on the incline road. Now unless this line is finished or those interested come forward the Seventh avenue incline project will not go. Carnegie Phipps & Co., the manufacturers of the iron and steel for its construction, claim to be able to dispose of the material for bridge building. Things have come to such a pass that interested owners have got to stand by the company.

WILL RECIPROCATE.

Premier McDonald Admits That He Will Work For Reciprocity.

OTTAWA, Ont., March 10.—Statements having been published that the Canadian government had instructed its organs to warn manufacturers that the tariff is to be abandoned, the premier was asked this morning about the matter. He stated that the government went to the country in the late general election on the question of the maintenance of the present tariff policy and it intended to adhere to that policy. This national policy, however, he said, was quite consistent with efforts to secure any fair reciprocity with the United States.

Great interest is manifested in the forthcoming meetings of the cabinet. It is believed that arrangements will be made for entering into negotiations for reciprocity.

Mrs. Frank Leslie's Latest Ad.

NEW YORK, March 10.—Mrs. Frank Leslie will make a new will tomorrow, by which the bulk of her fortune, amounting to at least \$500,000, will be left in trust for the establishment of an institution for the instruction of women and the advancement of higher education of the sex.

Deadly Condenser.

GLASGOW, March 10.—A condenser used in the manufacture of ammonia at the Duxton iron works, exploded this morning with terrific force. From the ruins three mangled bodies were recovered. Four other bodies, including the manager of the works, Mr. Milne, are still buried in the debris.

Rhode Island Nominations.

PROVIDENCE, R. I., March 10.—The state republican convention has made the following nominations: for governor, H. W. Ladd; for lieutenant governor, Lyman B. Goff; for attorney general, Daniel R. Ballou; for secretary of state, George H. Utter; for treasurer, T. Munford Seabury.

Defanter Reports.

STOUT FALLS, S. D., March 10.—John Patton, the defaulting bookkeeper of the penitentiary here, who skipped some months ago with a shortage in his accounts of \$200, has written from Windsor, Canada, signifying his willingness to return and make good the shortage, providing he is allowed to do so without interference.

Heavily Involved.

BOSTON, March 10.—The failure of Ludley, Hall & Co. was announced at noon today. The firm has for many years carried on an extensive tea and sugar importing business. The liabilities are rising \$400,000.

One Good Result.

The sewer committee of the council met this morning with the board of works and decided to close at once the Fourteenth avenue east sanitary sewer and to connect the east sewers with the outlet at Secord avenue. About a block of sewer will have to be built on Bench street at Thirteenth avenue to effect this, and work is to begin tomorrow morning on this. Ten days or two weeks will be required to complete the job. If the former board of works had not juggled with Engineer Herring's plans and changed the outlet to Fourteenth avenue, this expense and trouble would not be necessary.

Tracks on Fifth Avenue.

The papers calling for an extension of the Omaha tracks along the easterly side of the Fifth avenue west slip have been signed, the way surveyed and it is expected that work on the track will begin soon. It will reach the big wholesale houses of the Wells Stone company, the Chapin, Wells company and what others may be built east of the tracks for some of which negotiations are now pending.

How is This, Dr. Goff?

WORLD OF COMMERCE.

Cash Wheat and Future on the
Duluth Market.

MONEY MARKETS IN THE EAST.

Leading Speculative Commodities in
All the Leading Markets
of the World.

The market opened weaker today, first sales in May No. 1 hard being made at 1/2c off and in May No. 1 northern at 1/2c off. Foreign cables reported spot wheat in excellent demand with firmer prices. Reports from the Michigan crop were not as favorable as was expected. The market here was disposed to weaken later in the session on account of heavy realizing in Chicago on May wheat at \$1.02 and May corn at 60c. The market here was a dull, stagnant and waiting one and the bulk of trading was confined to the May option. The close was very dull all quotations being nominal at 1/2c below yesterday's figures except in cash No. 1 hard in store which closed at 1 1/4c below that of yesterday. May No. 1 hard sold early at \$1.04 1/2 and dropped selling at \$1.00. In the afternoon session it lost another 1/2c and closed nominal without further trading at \$1.00 1/2. May No. 1 northern wheat sold early at \$1.00 1/2, sold afterwards in 1000 bu lots at \$1.00 1/2 and lost down to the even dollar at the close nominal. No trading was done in other futures. No. 1 hard fresh wheat in store sold at \$1.01.

The closing prices were as follows:

	Cash	Mar	May	June
No. 1 hard	95 1/2	95 1/2	100	100
No. 1 northern	95 1/2	95 1/2	100	100
No. 2 northern	95 1/2	95 1/2	100	100

Cars on track: Wheat, 11, last year, wheat, 21. Receipts: Wheat, 20, 700 bu. Inspection: Cars No. 1 hard, 24; No. 1 northern, 46; No. 2 northern, 8; No. 3, 1; total, 83.

Local Bank Clearings.
Duluth bank clearings for today were \$15,106.41.

Chicago Close.

Chicago, March 10.—Wheat steady; cash, 99 1/2c; May, 101 1/2c; July, 97 1/2c; corn, steady; cash, 50 1/2c; March 57 1/2c; May, 60 1/2c; July 58 1/2c.

Minneapolis Wheat.

MINNEAPOLIS, March 10.—Close: No. 1 hard March, 99; on track, 99 1/2c; No. 1 northern March, 98; April, 97; May, 98 1/2c; on track, 98; No. 2 northern March, 95; on track, 95 1/2c; July, 100.

PERSONAL.

Rev. E. M. Noyes goes tonight to Montevideo, Minn., where he is to deliver a lecture.

Mr. and Mrs. George O. Horne returned today from a trip to England and the continent.

Miss McPhail, who is lying ill with typhoid fever at 212 East Seventh street, is not expected to live.

Harry Doty left for Swan river today to take charge of the railroad station temporarily at that place.

W. E. Wick, of the Globe, left today for Des Moines, Iowa, called thither by the sudden illness of a relative.

H. A. Scripps, a leading banker of the southern part of the state, is here from Cannon Falls today looking over business interests.

George C. Squires, R. B. C. Cement and other gas and water officials from St. Paul were in Duluth this morning and took breakfast at the Spruce Hotel.

Dr. J. E. Bowers left today for Crookston, where he will act as a medical expert in the case of Horace S. Russell who is being tried for the shooting of Dr. Babson.

J. W. Miller, of the Ideal restaurant has returned from his visit to Scotland. It is said that he went only as far as New York and that going over to Jersey City he was so sea sick on the ferry boat that he positively refused to go further.

A very enjoyable sleigh ride party was given the other evening by Ed Jacques Jr. The party went to West Duluth. In the party were Misses O'Meara, Crowley, Stewart, Davidson, Thompson, Teschue, Zimmerman and Michael and Messrs. Morrison, Teschue, Day, Woodworth, McEwen, Buschle, Michael and Jacques.

Fun For All.

Standing room only was early displayed at Temple Opera box office last night and the play pleased the crowd even better than it did last year. "Natural Gas" as presented by Donnelly and Girard and their company is now funnier than ever. New songs, new dances and new gags make a most attractive show. Donnelly and Girard have gained in the year, while Mack and Lawrence lend aid in producing the fun. Miss Barlein makes a fine character sketch of Kitty Malone. The leading dancer is Millie Price Dow, and she is a versatile and extravagantly active kicker.

In Lower Court.

The case of J. J. Cullen for keeping a disorderly saloon was continued today by the municipal court until March 14. John M. Caplin and Al. King were each fined \$32.50 for keeping saloons open after the closing hour.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1889.

Exclusive Handlers of Strictly
TAILOR MADE CLOTHING.

THE WORLD has been compared to a stage, and we certainly have to dress for the parts we play in it. An actor who is not properly attired for his part cannot expect to win popular approval. He is pretty sure to find out that he is making a mere musing quibble of the performance, and he has only himself to blame if the curtain is promptly rung down upon him. It is very much the same in real life—if your attire is not consistent with the part you play in it your performance is likely to be a failure. Whatever your part may be, we can suitably attire you for it, and you will be in no danger of having the curtain rung down upon you when you are wearing one of our tailor-made suits, spring overcoats, or trousers. They are the production of our most skilled tailors. We continue to offer bargains in all heavy-weight suits and overcoats. Who's your hatter? We are exclusive agents for Youmans' Celebrated Hats.

PALMER AT LAST.

Senatorial Fight in the Illinois
Legislature Ended.

WORDS, INKSTANDS AND SPITTOONS.

Disgraceful Scenes Take Place in the
Lower House of Kansas and
Arkansas Legislatures.

SPRINGFIELD, Ill., March 11.—Gen. Palmer was elected United States senator on the first ballot this morning. It was a foregone conclusion this morning that he would be elected by a solid 101 democratic votes of the joint assembly assisted by those of two F. M. B. A. men—Moore and Cockrell. Yet the republicans were not ready to go down without a struggle. They held a caucus and the steering committee sent for Representative Moore, one of the F. M. B. A. men and offered him a solid republican vote of 100 if he and his two confederates, Cockrell and Taubeneck would join them. This offer was considered good politics. If accepted it would defeat Gen. Palmer and put the F. M. B. A. as decidedly under obligations to the republicans. It rejected it would put the farmers in the anomalous position of refusing to elect a farmer. It was a tenuous lure, but failed. In reply Moore said "the offer was too late."

Replying to a vociferous call Gen. Palmer spoke as follows: "Gentlemen of the thirty-seventh assembly: You ought not to expect me to speak at this time. I feel more like saying, 'sit! I thank you 101 members for vindicating the rights of the people. By a plurality of votes was expressed a desire of the people to select me as senator and my election is historical. You men who have abjured so long to elect your independent candidate also deserve my thanks. My republican friends, I thank you, too—you who in this contest represented old methods of electing members. I thank you all that this contest has been free from personalities. This election does not require a long speech. The assembly then adjourned sine die.

After the long and wearying fight there is nothing to do but to accept the situation as it is. The election is a bitter pill for some, but seems to give general satisfaction. John McAuley Palmer was governor of the state of Illinois during 1893-72. He was born in Scott county, Ky., in 1817. During his infancy his father, who had been a soldier in the war of 1812, removed to Christian county, Ky., where he remained till 1831, when he emigrated to Madison county, Ill. Gen. Palmer was married in 1838 and elected by the republicans in 1868 and elected by a large majority. His political course during the war was such as to alienate him from his party. He has been a democrat ever since.

BEDLAM AT TOPEKA.

Session of the House Nearly Terminates in a Fight.

TOPEKA, Kan., March 11.—The assembly was the scene of great excitement last evening during the final session of the house of representatives. The report of the committee which investigated the metropolitan system created for the purpose of enforcing the prohibition law, was presented. It stated the prohibition law has been a failure so far as it applied to cities of Kansas and recommended that the governor withdraw the state police from such cities. The report was amended making the withdrawal of the state police discretionary with the governor and adopted.

The committee appointed to investigate the conduct of the state house commissioners announced it was not ready to report. Speaker Elder, who had resigned the chair to Speaker pro tem Hatchett, moved the committee be allowed to sit after adjournment of the legislature and that 3000 copies of its report be printed for the voters. Judge (rep.) said heretofore persons under investigation had not been allowed to present at the committee's sittings. Elder demanded the lobby and denounced the committee and the farmers' resistance in bitter terms. Rice (rep.) rose to speak when Elder demanded a previous question. Rice protested and turned it a "damnable disgrace." Elder in reply, became exceedingly angry, and said the farmers alliance was running the house and the republicans must submit.

The galleries hissed; the farmers alliance cheered and republicans groaned. Elder demanded the lobby and denounced the committee and the farmers' resistance in bitter terms. Rice (rep.) rose to speak when Elder demanded a previous question. Rice protested and turned it a "damnable disgrace." Elder in reply, became exceedingly angry, and said the farmers alliance was running the house and the republicans must submit.

SUE FOR OVERTIME.

Buffalo Letter Carriers Want Back Pay Under the Eight-hour Law.

BUFFALO, March 11.—The letter carriers of Buffalo are going to bring a suit against the government for sums aggregating \$30,000 for overtime since 1888 when the eight-hour law went into effect. The suit will be instituted at Utica on March 17.

In order to recover the amounts to be sued for, the carriers will have to make scheduled lists of all overtime spent in actual service and swear to them. These must be checked by the postmaster and sent to Washington.

Minister Swifts' Record.

SAN FRANCISCO, March 11.—John Franklin Swifts, minister to Japan, whose death is reported from Tokyo, was born at Bowling Green, Pike county, Mo., in 1829. In 1852 he came to California and entered the law office of Frank Pixley. From then on he served as a lawyer of distinction, and was well known in the bar outside his own state. He was appointed minister to Japan March 11, 1889, and has since resided in that country.

INTERECINE WAR.

More Trouble Brewing in the Order of Elks.

CLEVELAND, Ohio, March 11.—More trouble is brewing in the Benevolent Protective Order of Elks. Some time ago there was a split in the order which culminated in the Western lodge holding a secession of the grand lodge in this city, deposing the grand lodge proper, which had its headquarters in New York, outluring its membership, and setting up a new grand lodge, with headquarters in this city, and with Allen O. Myers, the well-known Ohio Free-Lance newspaper writer, as grand secretary. The latter has now got into collision with prominent tailors in the order notably John W. White of Chicago, formerly exalted ruler of lodge No. 4, and war to the knife has been declared.

BUFFALO FIRE.

Another Conflagration for Which That City is Characteristic.

BUFFALO, March 11.—A disastrous fire started yesterday afternoon at the corner of Court and Pearl streets in the new 6-story building occupied as a clothing house by Forbes & Co., on the north-west corner. Half an hour after the fire broke out the building was in flames and the walls fell in shortly after. One man was slightly hurt. The fire spread to the Dental company's building and Crowder Bros' undertaker store and they were soon one mass of flames and the walls fell in shortly after. The buildings occupied by Forbes & Co., were owned by Henry W. Burt and cost \$45,000. The second, third and fourth floors were occupied by Schuchman & Oehlrich, dealers in boots and shoes, who employed over 100 hands, mostly girls. All escaped in safety. The losses are estimated as follows: Burt's building \$40,000; insurance \$30,000; C. V. Forbes, loss, \$80,000; insurance, \$60,000; Crowder Bros., loss, \$12,000; insurance, partial; Buffalo Dental company, loss, \$30,000; insurance, \$21,000; on building owned by Merritt Nichols, loss, \$10,000; insurance, \$8,000; Schuchman & Oehlrich, loss, probably \$40,000; insurance, \$26,750.

WISCONSIN G. A. R.

Annual State Encampment Promises to be Decidedly Antislavery.

OSKOSH, Wis., March 11.—The annual encampment of the Grand Army of the Republic opened here today. There is a very large attendance due to a measure to the probability that the old trouble between the veterans and the Loyal Legion will be renewed. Only commissioned officers and their sons are eligible to membership in the latter, but it is claimed they have monopolized the honors and offices of the grand army at the same time ignoring the veterans of the rank and file.

MONON DIRECTORS.

Annual Earnings of the Road Show a Comfortable Surplus.

NEW YORK, March 11.—The annual meeting of the stockholders of the Louisville, New Albany & Chicago railroad, otherwise known as the Monon, is in progress here today. The annual report, which was read by President Breyer, shows a comfortable surplus of nearly \$100,000. Considerable gratification was expressed over the action of Judge Taylor, of Chicago, in refusing the recent application for a receiver for the road, which is characterized as simply an attempt on the part of antagonistic elements to wreck the property. President Breyer and his associates on the board of directors, will be endorsed and re-elected.

PENNSYLVANIA'S EARNINGS.

Interesting Statistics Presented at the Annual Meeting of Stockholders.

PHILADELPHIA, March 11.—At the annual meeting of the stockholders of the Pennsylvania railroad held here today, a report was presented showing that the gross earnings during the past year of the entire system had reached the enormous aggregate of \$85,500,000, while the expenses were \$22,000,000, showing net earnings of \$63,500,000. The traffic of the year was the heaviest on record, and as a result the incorporation was enabled to spend nearly \$10,000,000 on new construction and equipments. Although there have been heavy expenses for betterments and for road losses, the stock had earned something over 8 per cent for the year.

THE BRIDE'S NEST.

Comfortable Present Given to the Third John Jacob Astor.

NEW YORK, March 11.—The final papers were signed today by which John Jacob Astor the third, who recently married Miss Willing of Philadelphia, becomes the owner for half a million dollars in cold cash, of the two lots at Fifth street and Fifth avenue, belonging to the estate of the duchess of Marlborough. Next week building operations will be commenced on the double mansion after the style of Vanderbilt's marble palace, which, as Mr. Astor facetiously expressed it, is to be his "bride's nest." The residence exclusive of furniture, is to cost the sum of \$500,000. The art gallery will be large enough to contain 800 paintings.

Peoria Manufacturing Burned.

PEORIA, Ill., March 11.—The starch house and sugar refinery of the Peoria Grape Sugar company burned last night. Loss, \$10,000; fully insured. One employee was fatally burned.

THE MARCH ESTIMATE.

Statistical Returns From the
Department of Agriculture,

GIVING FACTS AND FIGURES.

How the Present Outlook Compares With That of Several Years Past.

WASHINGTON, March 11.—The statistical returns for the department of agriculture for March are. Estimate of the corn and wheat in hands of farmers, the proportion and present value of merchantable corn, the weight of wheat per measured bushel and other points in the commercial distribution of grain. The result of the consolidation makes the farmers reserve of corn 34.4 per cent of the crop in comparison with 25.5 last year, in bushels 512,000,000 against 970,000,000 last year. It is the lowest recent reserve except that from the small crop of 1887, and that from the crop of 1883. The percentage retained in the seven corn surplus states is less than in 1887. The proportion estimated for consumption where grown is relatively large, 57.4 per cent instead of 51.8 per cent last year. The quantity shipped or to be shipped from the farms, is therefore 188,000,000 bushels or less than half the surplus of last year. Proportion of the crop merchantable is 73.5 per cent against 85.7 per cent last year. It is therefore slightly under the average in quality. The average price of merchantable corn is 53.5 cents per bushel, an unimproved 32.3 cents. The aggregate value of the crop on this basis is \$761,000,000, nearly \$7,000,000 more than the December valuation, an advance of about 1 per cent, establishing the substantial accuracy of the December estimate. The proportion of wheat still in hands of farmers is lower than an average of the last ten years, the range being from 20 to 35 per cent. It is 28.2 per cent or 112,000,000 bushels. It has been lower only in two years of the last ten, after the meager crop of 1881 and 1885, which were smaller than that of 1890. Including the visible stocks, the supply is 135,000,000 bushels. The completion of the last twelve months is estimated at \$220,000,000 seed used, \$30,000,000 and the exports, \$89,000,000, \$6,000,000 from March 1, 1890. The low percentages of the spring wheat states are especially noteworthy. The present stocks will be required for the spring sowing. The proportion of the crop estimated for consumption within the country is 52.1 per cent against 48.1 last year. The average wheat per measured bushel is 57.2 pounds. The average of 1889 was 57.7 pounds, which was the price average of seven crops from 1885. In bushels of sixty pounds the aggregate is \$81,000,000, or 10,000,000 less than the preceding crop.

DEATHBED REVELATION.

Confesses a Horrible Deed in a Sioux City Packing House.

TACOMA, March 11.—A prominent Tacoma physician has made a terrible revelation. He was called two months ago to the deathbed of a poor Swede named Lars Pederson, who told the physician his dying confession as follows: "Pederson worked in the Sioux City Packing house, where he was employed since 1880, when he killed a man named Larson Harstrum, who worked with him. He stabbed him and his blood ran down the chute to the fertilizer receptacle, mixing with the blood of swine. He then put him in a chute and the body in among 10,000 carcasses of hogs killed that day. Near morning he took the body to the chopping block, cut it in pieces, covered it with salt and ran them to the fertilizer receptacle, and piles of pork left there for months. He then burned the clothes in the furnace. Pederson lived in Sioux City for two months after the murder and then came here.

DISGUSTING SPECTACLE.

Arkansas Representatives Indulge in a Spittoon Fustle.

LITTLE ROCK, Ark., March 11.—Great excitement prevailed in the house of representatives this afternoon. E. C. Mitchell, of Boone, and H. C. Read, of Little Rock, participating in a fight. The question of calling a constitutional convention was under consideration. Mr. Sevier having introduced a substitute for the senate bill, providing that the question should be submitted to a vote of the people instead of the legislature calling the convention, as provided by senate bill.

PEPPER'S SPEECH.

Mitchell spoke in favor of the constitution and Read said that from the vote cast two years ago in Boone county, 370 for and 335 against, the people did not want a constitutional convention.

Mitchell said the people of Boone were not like those of Little Rock county, who want a constitutional convention. "Niggers." The lie was taken up and inkstands, spittoons and other articles were exchanged. No one was injured but several members were well bespattered with ink and tobacco juice. Both combatants afterwards apologized to the house.

Ex-Chief Washburn for Mayor.

CHICAGO, March 11.—Elmer E. Washburn, once chief of the United States secret service, has received and accepted the nomination for mayor of Chicago on the independent unionist ticket. The personal rights wing of the nomination committee formally objected to the nomination and withdrew from the committee, but this leaves him with a strong following. Washburn's past experience has undoubtedly well fitted him to assume the executive duties of Chicago during the reign of crime which is sure to ensue between this and the World's fair. Of course he will be strongly opposed by the union element.

Lumbermen Conclude.

OMAHA, March 11.—Three hundred members of the Nebraska State Lumbermen association in annual convention have accepted the proposition of the United Lumbermen, in moving the two organizations. This virtually invites all Western lumber dealers. It was agreed to accept all wholesalers who persist in dealing in the retail trade. May 10 the consolidation will occur in a convention at Chicago.

For the Window Family.

NEW YORK, March 11.—Friends of the late Secretary Windom in this city, principally bankers, have started a fund for the Window family in recognition of the efficient services of the deceased father and husband. So far the subscribers have reached \$48,000.

NO CASH THERE.

Louisville Branch of the Irish National League Exhibits Good Sense.

NEW YORK, March 11.—The central council of the Irish national league in this city and the corresponding body in Philadelphia have both received copies of the resolution adopted by the Emerald branch of the league in Louisville, deploring that it will give no money or other aid to either of the delegations that are to arrive in this country in behalf of the Parrell and McCarthy factions of the Irish parliamentary party, and urging all other branches of the league in the United States, Canada and Australia to take similar action. This is the first American council to place itself definitely on record in favor of neutrality, and it is thought that its action will be largely followed.

Were it not too late, steps would be taken to induce the rival delegations to postpone their visits. The conflict which took place on Sunday on the dock at Queensdown between the McCarthyites and the Parrellites, when the latter were about to leave for the American steamer, demonstrated the bitterness of feeling that exists between the factions. How peace and good-will can be preserved when the two delegations are once in this country is a question that is giving serious anxiety to prominent supporters of the Irish movement, who have the good of that cause at heart.

THE MAFIA TRIAL.

Politics Steeped Through the Proceedings: Several Indictments.

NEW ORLEANS, March 11.—In the trial of the Italians yesterday for the murder of Chief of Police Hennessy, Politz, one of the men on trial, slept nearly all the time. He dozed in his chair while the proceedings went on. Suddenly he roused himself and fell to the floor in fit, being subsequently removed to the adjoining sheriff's office as the case went on. The state will, in its rebuttal testimony, show that the witnesses for the defense, in some cases, have sworn to palpable untruths. It is expected that there will be future prosecutions for perjury as a result of the trial. The jury were taken to the scene of murder in a body last night. A commission of medical experts have been asked for to examine into Politz's mental condition at the conclusion of the trial.

DRUNKEN MURDER.

Objected to Being Seized for Breach of Promise.

SAGINAW, Mich., March 11.—A shocking tragedy, the outcome of proceedings for a breach of promise, occurred in this city last evening. Edward Rogers had been for some time intimate with Hattie Moses and this morning she swore out a warrant for breach of promise. Rogers heard of it and went to her house partly intoxicated and a quarrel ensued. Suddenly Rogers drew a revolver, pressed it against her heart and fired, killing her instantly. He then shot himself in the breast, falling across the breast of the woman. Rogers' wounds are pronounced fatal.

TRIBUNE SOLD.

Dakota Talent Will Take Hold of the Minneapolis Daily.

MINNEAPOLIS, March 11.—The Tribune of this city was sold yesterday to a company headed by W. J. Murphy, of Grand Forks, N. D. The purchase price is said to be \$400,000. Rumor has it that Senator Gilbert A. Pierce, of North Dakota, will assume editorial control. W. J. Murphy was formerly editor and proprietor of the Evening Plaindealer, but more recently has been connected with the leading industries of his native city. He is republican in politics but an advocate of free trade.

Terrible Tragedy.

PELICAN RAPIDS, Minn., March 11.—The town was horrified yesterday by the announcement that Mrs. O. C. Hanson, a well-respected lady of this place, had hanged herself and one child. No cause was known why she should have performed the insane act. It is believed her mind must have been unbalanced. It is reported that her husband became a raving maniac when informed of the tragedy.

In committing the deed the woman fastened a stout string on the edge of the door just above the hinge on which she hanged the baby. She then drove a nail in the top of the door casing and attached a stout string, to which she hanged herself. When found both bodies were hanging and life extinct, the woman's feet touching the floor. Mrs. Hanson had been married about two years and was a second wife. Mr. Hanson having three boys by his first wife.

Camp and Wait.

EL Reno, Oklahoma, March 11.—Many settlers who invaded the Cherokee strip two weeks ago have reached this point, having made the trip from the strip in prairie schooners. Some of them will camp on the boundaries of the Cheyenne and Arapaho reservation, the treaty for sale of which was ratified by the fifty-first congress and will take up claims in the new country after allotment has been made to the Indians. The reservation comprises 4,000,228 acres. There will then remain for general settlement about 3,500,000 acres.

Southern California Exhibition.

LOS ANGELES, Cal., March 11.—The state citrus fair was formally opened at Hazard's pavilion last night. Over 1,000,000 oranges were used in making the designs and exhibits. Eight counties of Southern California are represented. The exhibit is unique in the display of California products is almost bewildering. The attendance is large, many being present from all parts of the United States and Mexico.

Mostly Democratic.

OWATONNA, Minn., March 11.—E. M. Morehouse, democrat, was yesterday elected mayor of this city. The majority of the city officers elected are also democrats.

Two for Governor Burke.

BISMARCK, March 11.—F. C. Hollenback has been appointed deputy warder of the state penitentiary and J. M. Edgerly, bookkeeper and assistant gate keeper. Both are democrats.

IS IT ANNEXATION.

Conflicting Reports as to Complexion of Village Officers.

THEY MAY FAVOR ANNEXATION.

The Alliance Claims That All the New Officers Favor Joining Duluth.

It is pretty difficult to tell from the diverse and contradictory reports received regarding the standing of the village officials of West Duluth, elected yesterday, on the question of a separate city charter and annexation to West Duluth. The anti-annexationists of West Duluth claim that the new officers are against annexation to Duluth. It is, however, significant that the Boyd element found themselves left out of the fight. The alliance party of Duluth who directed the fight claim that the alliance party and the labor element whose ticket was elected, are in favor of annexation and opposed to a separate charter. M. Robinson was in Duluth this morning and stated that the newly elected officials are against a separate charter. It is known that A. Dunleavy refused to pledge himself before election to the anti-annexationists, and that also the alliance and labor committee refused to pledge themselves to the same party. The citizens committee of West Duluth and committee from the Duluth council and chamber of commerce held meetings today at the chamber of commerce. It is understood now that a compromise for annexation in 1893 will be effected, although the West Duluthians are hanging out for 1895, as the date for annexation and special legislation for villages of over 200 inhabitants. Mayor Davis and T. W. Hugo, S. A. Thompson, M. R. Baldwin, R. S. Munger and J. B. Stuphin are looking after Duluth's interests.

SOUTHERN BLOOD.

Murder the Result of a Feud of Long Standing.

MEMPHIS, Tenn., March 11.—David H. Poston, a prominent lawyer of this city, was yesterday shot and mortally wounded by Col. A. Clay King, a well-known citizen and also a member of the Memphis bar.

The causes which led to the shooting have their origin in the law suit which has become a case celebrated in both Tennessee and Arkansas judicial annals and to which H. Clay King and Mrs. Gideon J. Pillow, wife of Gideon J. Pillow of Fort Pillow fame, were the principals. The litigation grew out of a certain transaction between these parties with regard to Arkansas lands. Mrs. Pillow claiming the title through certain deeds signed by King and which she claimed were never executed as far as delivery was concerned, alleging that she obtained surreptitious possession of them. The firm of Poston & Poston was the counsel for Mrs. Pillow, the complainant, and have prosecuted her title vigorously.

The case is now pending in the supreme court of this state and is expected to be decided in the latter part of the April term of that tribunal, it having been decided in the lower court in King's favor. Poston's family is one of the most prominent in the city and well known throughout the South. Col. H. Clay King served with distinction in the Confederate army and was a lawyer, and is the author of "King's Digest of the Laws of Tennessee," which was for a long time a standard work.

EXCITES THE GOVERNMENT.

Bismarck's Candidacy Leads to an Unusual Amount of Discussion.

BERLIN, March 11.—Prince Bismarck's candidacy for Goesteumede is the principal topic of discussion in the circles of the reichstag. It is freely asserted that the government feels embarrassed over his decision. Chancellor von Caprivi and Minister Ruge had a long conference on the subject on Sunday. The seat for Goesteumede has long been held by national liberal though in 1890 it was secured only on a second ballot against a socialist. The Vossische Zeitung fears that Chancellor von Caprivi's rejection of both Freinstitute's support precludes a return to the old policy of unbending protection and that the government will gratify the landed interests by making no concession to Austria in respect to grain duties. The Horen Zeitung talks of a return to the old Bismarckian regime. The opinion is expressed in many quarters that the proposed treaty with Austria is not likely to be concluded.

SPAIN SEEMS ARMED.

Troops to be Dispatched to Cuba by the Government.

PANAMA, March 11.—A dispatch to the Temps from Madrid says the Spanish government is about to dispatch 6570 troops to Cuba on account of the increasing political agitation on the island. If the situation becomes worse Gen. Campos will be appointed viceroy. The Spanish press protests against Americans encouraging the Cuban separatists in connection with the proposed treaty of commerce.

For a Michigan Ship Canal.

LANSING, Mich., March 11.—Charles Slight of the Grand Rapids board of trade has submitted to a joint legislative committee the novel plan for connecting Lake Michigan and Lake Huron with a ship canal stretching across the lower peninsula of Michigan near the geographical center. Engineers have held that the plan is feasible though costly. The expense of such a scheme would be tremendous and would entail heavy appropriations, both state and national. Chicago will land every influence for the furthering of the measure.

Kicker Hitcock Sails.

NEW YORK, March 11.—Senator Frank Hitcock accompanied by his wife, left today for a month's visit to Cuba. He is expected to return with a new politics in the trip, that he did not propose to look over the island with the view of pricing it for the United States, but was simply desirous of taking the tour for rest and recreation.

Congressman Breckinridge Ill.

PENNSACOLA, Fla., March 11.—Congressman Breckinridge of Kentucky, is very ill at Hotel Esplanade. His illness is caused by an acute case of the grip, and tonsillitis has developed. His physicians are very much alarmed and they consider the case very dangerous. Friends will be immediately summoned.

CANADIAN ELECTIONS.

Ex-Governor Ramsey Talks on the Canadian Situation.

WHAT HAS CANADA TO GIVE?

The Wonderful Activity Which Annexation to the United States Would Impart.

Ex-Governor Ramsey of St. Paul was in Duluth last evening and had some pointers to give in politics which are of extreme public interest in relation to the late Canadian general elections. He said: "The wonderful fight made by the liberals of Canada on the issue of unrestricted reciprocity is in many respects a surprise. Less than a year ago the Canadian press boasted that there was not a party or even a candidate in the United States who would advocate annexation to the United States. Now it is a matter of time until definite propositions for annexation will be made. Whether the United States will be benefited by unrestricted reciprocity with Canada raises grave doubts in my mind. Blaine used to say years ago when he was in congress and the representatives of the Northwestern states were advocating a revival of the reciprocity measure of the '50's with Canada: 'What has Canada to give us in return for a market of 40,000,000 people, the very best market in the world. She can sell all her produce in the United States, but what can the United States sell in Canada more than she does?' Blaine was in a position then where he could not say that. Now he is in a position where he cannot say that. He does not notice that he is planning for reciprocity with Canada."

"If Canada was politically annexed to the United States it would give a wonderful impetus to her growth and development. American capital would pour in and open her mineral and other resources and the great waterways would be a few years before put in condition for coastwise vessels to ascend the St. Lawrence and the great lakes even to Duluth. Even now I think in the event that this does not take place the United States will on her own territory provide means for loaded vessels to sail from Duluth to Liverpool."

"As regards the outlook for the republican party in 1920 I am a good deal more sanguine than many are. The alliance movement I regard as a story of the same character as the greenback flat money party. I think Blaine and Cleveland will make the race unless something unforeseen turns up."

Governor Ramsey then branched off on other reminiscences of Duluth, having been here as early as 1862. His recollections of a long and eventful career, since he was 20 years of age, when he was elected to congress will serve several volumes with interesting data.

AN INJUNCTION.

Gas and Water Company Sues Forth its Position on the Sewer Issue.

The Duluth Gas and Water company has applied to the district court for an injunction to restrain the city of Duluth from using the sewer in Fourteenth avenue east or completing and using the sewer in Ohio avenue so that their contents will be discharged into the lake at any point nearer the pumping station than Second avenue east. If the injunction is granted the service will probably be made today.

The complaint of the gas and water company, by its attorneys, Draper, Davis and Hollister of this city, and J. H. Squires and Cutcheon of St. Paul, asserts that the corporation was organized in March, 1883, under the state laws to furnish the village of Duluth with gas and water; that on March 30, 1883, the common council of Duluth adopted an ordinance authorizing the gas and water company to construct and maintain gas and water works, contracting with the company for a supply of gas and water, etc., and on October 18, 1883, the common council of said ordinance. The company then constructed its system of gas and water works, which was accepted by the common council, November 7, 1883, and the company has ever since maintained and operated the same. In so constructing the system of water and sewer, before November 1, 1883, the company located its pump house at a point east of the mouth of Chester creek on the block of land lying between Fourteenth avenue east and New York avenue, and before said date extended its intake pipe therefrom into the lake 234 feet below the surface. During 1883 and up to 1890 the village of Duluth had not constructed any sewers, nor did it adopt any plan of sewerage construction until 1891.

During 1892 and after the location of pump house and intake pipe the common council employed Rudolph Hestling to make a report of a proper system of sewerage. On April 23, 1894, Hestling made his report which was received by the common council. By this report the village was recommended to construct its system of sewerage that the main sewer should be through Lake avenue and should discharge into the lake at the foot of Lake avenue into the canal across Minnesota Point. The plaintiff asserts that a system of sewerage constructed in accordance with that report and discharging its contents into the lake by reason of currents in the lake being carried in a southerly direction and would at all times have prevented any danger of the sewerage polluting or in any way affecting the water of the lake at the point where the plaintiff had located its intake pipe. Notwithstanding the report and in violation of the plan of sewerage proposed the village of Duluth in 1890, proceeded to construct several sewers west of Chester creek and connected them with their main sewer or outlet which was constructed by the village so as to discharge them at the foot of Second avenue east and more than half a mile nearer the point at which the plaintiff had located its intake pipe than the foot of Lake avenue and through such action of the village the liability of the water becoming polluted correspondingly increased.

In 1895 it became necessary in order to supply the increasing population of the city to enlarge the system of water works, and the plaintiff did so at great expense; and among other things extended the intake pipe to a total length of 410 feet and to a depth of forty-five feet below the surface, and has ever since so used and operated the system. During 1898, pursuant to a resolution by the common council on May 7 of that year, the city of Duluth constructed a sewer through Fourteenth avenue east and having its outlet at a point a short distance west of the south end of the avenue and about 700

feet west of the plaintiff's pumping station, and notwithstanding the protests put the same in operation about December, 1898.

During 1899 the city began the construction of a sewer in Ohio avenue, with its outlet at the foot of said avenue about 1000 feet east of the plaintiff's pumping station, and the city is still engaged in the construction of the sewer. The plaintiff was informed that this sewer was to be used as a storm sewer only, but about Feb. 16, 1901, learned that it will be used as a combination storm and sanitary sewer. To this also the company formally protested.

The plaintiff further alleges that if the sewers in Fourteenth avenue east and Ohio avenue are permitted to discharge into the lake at the points mentioned, the water of the lake, which is being supplied by the plaintiff will be in danger of becoming contaminated. The company has already expended within the corporate limits of the city of Duluth more than \$1,000,000, the greater part of which was for the construction of the system of water works. Within the past six months it has purchased and placed in operation in the pumping station a new pump, having a pumping capacity of 6,000,000 gallons of water per day, and is now engaged in placing an intake pipe into the lake to a total distance of 1000 feet, and the cost of such improvements will be more than \$500,000.

In 1900 the company purchased land on the north shore of the lake at a point east of the city of Duluth and it purposes as soon as the reasonable requirements of the city make it necessary, to move its pumping station and intake pipe to that point, and to place the sewer in Ohio avenue east and Ohio avenue east, and to divert and connect with the general sewerage system of the city so that they shall discharge into the sewer on Second avenue east at a cost of not to exceed \$100,000, and thereby all danger of the water becoming contaminated will be removed.

In view of the foregoing the gas and water company demands the decree of the district court that the city of Duluth be enjoined from using the sewer in Fourteenth avenue east, and from completing and using the sewer in Ohio avenue, so that either of them shall be discharged near the pumping station than the foot of Second avenue east.

WEST END.
A box social was held at Mrs. Brown's, 2216 West Michigan street, last evening. Each lady brought a box containing supper for two. A slip of paper with some quotation was placed in each box after it was cut in two, the gentleman picking out the piece of paper to read the quotation was to take the box and was also entitled to eat his supper with his lady partner. Some of the quotations were to the effect: "The gentleman who gets the partner whom they had brought to the social, while others were obliged to eat lunch with some other girl. Tiddlywinks was the favorite game of the evening."

John W. Hood, of Marquette, is visiting his parents this week.
A. A. Anderson and Ed. Blackwood, of Marquette, were in the city Sunday. The former came over to look after the polo game which takes place at West Superior Saturday evening.

Compare This With Superior.

Nearly 30 per cent of the total levy on personal property in the city was paid before March 1, when the penalty attached. This is a very large percentage as usually only from 10 to 15 per cent is counted on. The total amount received in the county treasury on real estate and personal taxes since January 1 is \$217,825.55. The penalty on real estate taxes is not added until June 1.

Children Cry for Pitcher's Castoria.

Listen, people, while I preach in four lines a sermon: Boy, don't neglect the little ones. As the father's firm: Never be so kind to truth; Never be so kind to truth; Take a trip on the Duluth, St. Paul and Atlantic.

A. J. Miller, of the firm of Miller & McAdams, has been on a business trip through Southern Minnesota to secure poultry, butter and eggs for their trade.

Lovers of honey will be gratified to learn that Dr. Bull's Cough Syrup is a much sweeter article, much better for a cough. Price twenty-five cents.

WORLD OF COMMERCE.

Cash Wheat and Future on the Duluth Market.

MONEY MARKETS IN THE EAST.

Leading Speculative Commodities in All the Leading Markets of the World.

The market opened weaker today in sympathy with all American markets. The opening sale in May No. 1 hard was made at 1 1/2c off, and May No. 1 northern at 1/2c off from yesterday's close. Bradstreet's figures today showed a decrease in wheat east of the Rockies of 900,000 bu., and west of them a decrease of 684,000 bu., a total of 1,584,000 bu. Boston cleared about 25,000 sacks of flour and about 14,000 bu. of wheat. New York cleared 30,927 bu. of wheat. The general opinion seemed to be that the government crop report was bullish news but it shows the reserves of wheat to be as large as in 1889 and larger than in 1887. It also shows larger reserves of corn than in 1884 and in 1888. The total clearances of wheat from all ports today were: Wheat, 115,421 bu.; flour, 400 sacks and 3440 bbls.

The general tendency of the market here was upward until the last half hour when there was a general strengthening and a strong close in the May future. Chicago fluctuated greatly, but closed firm. Owing to the uncertainty of the market, there was not a great amount of trading done. The close was unchanged from yesterday, except for the May option, which closed at 1/2c advance above yesterday's close, and 1/2c advance over the opening.

May wheat opened weak, selling at \$1.02 for No. 1 hard closed to \$1.03 for No. 1 hard, and the last half hour went to \$1.03 1/2 closing strong at that figure. May No. 1 hard sold early weaker at 90 1/2c went to a \$1.00 in the forenoon and stiffened up in the afternoon to \$1.00 1/2 closing firm at that price with bids. Cash in store sold at 1/2c and 91 1/2c for No. 2 northern. Wheat on track sold 98c for No. 1 northern and wheat to arrive sold in our lots at 98 1/2c. There were no sales made in other futures.

The closing prices today were as follows:

	Cash	May	June
No. 1 hard	98 1/2	100 1/2	101 1/2
No. 1 northern	98 1/2	100 1/2	101 1/2
No. 2 northern	98 1/2	100 1/2	101 1/2

Cars on track: Wheat, 62, last year wheat, 78. Receipts: Wheat, 28,420 bu. Shipments, wheat, 4400 bu.

Local Bank Clearings. Duluth bank clearings for today were \$214,521.45.

Chicago Cattle.

CHICAGO, March 11.—Wheat was very erratic today. The government was bearish and longs sold freely on it at the opening and it opened 1/2c lower than yesterday's closing. At the decline local bulls bought freely and advanced prices 1/2c and closed at the top. Cables have been conflicting and markets have followed them and has eased all day. The government on the face of it is very bearish but bulls claim it is not on account of short weight to bushel. Corn is higher. The government report was the guiding star to this article, and as the crowd construed it as a bullish market it sold at top prices on the crop and closed there. Provisions took on a bull turn, shorts getting scared on continued strong firm markets.

THE BIG SYNDICATE.

The option on the Mesabi Syndicate Property Confirmed This Morning.

A special meeting of the stockholders of the Mesabi Iron company was held this forenoon at W. W. Spaulding's office, and the option on the property of the company covering 9000 acres on the Eastern Mesabi given several months ago to the Mesabi syndicate was confirmed and extended to Lovett & Brown, who will probably reorganize the Mesabi syndicate, in which there has been some trouble lately among the members, and develop the property, which lies in townships 30-32 and 33, comprising some of the most valuable iron lands on the range.

Sleigh Ride to Lester Park.

The Y. P. S. C. E. of the First Baptist church will give a sleigh ride to Lester Park Friday evening. All are requested to come to the church to start at 7:30 sharp and bring basket lunch.

Scharwenka's Reputation. Rubenstein is the only pianist who has ever received a large sum for an American tour as Scharwenka.

CITY BRIEFS.

A well attended meeting of the A. O. H. was held last evening in Catholic Association hall.

The funeral of the child of C. A. Long which died shortly after birth occurred this afternoon at 3 o'clock.

W. G. Ten Brook has received the appointment of chief master of the Minnesota department G. A. R. by State Commander C. D. Parker.

The March meeting of the Suffrage Circle will be held at the E. and I. union headquarters, 211 Superior street east, Friday, the 20th, commencing at 2:30 p. m. A full attendance is desired.

Duncan, Brewer & Co., have brought suit against Julius Hickerson, C. Hickerson and the West Duluth Land Company, to foreclose a lien for lumber furnished to build a house in Second division, West Duluth. The bill amounts to \$234.51.

Contributions for the sufferers of the Thatcher flat fire are quite liberal, and The Herald has already received quite a supply of serviceable old clothing. More is needed, however, and will be thankfully received by Rev. C. C. Salter at the Bethel or The Herald office.

James Joyce, of East Second street, came home last evening rather the worse for liquor and began to abuse his wife and mother-in-law. Officer Shea was called and arrested the man. The wife and mother-in-law followed Joyce down to the police station and saw him behind the bars. Mrs. Joyce is only 17 years of age.

Fergus Falls Journal: C. L. Lewis left for Duluth Sunday night where he has formed a partnership with Attorney P. W. Smith for the practice of law. Mr. Lewis will return to Fergus in two weeks, but his family will not go to Duluth to reside until April.

The following variations in temperature were recorded at Pioneer Fuel company's office, Hotel St. Louis, 326 Superior street: 12 m., 13° above; 3 p. m., 18° above; 6 p. m., 10° above; 9 p. m., 16° above; 7 a. m., 10° above; 9 a. m., 13° above; 12 m., 20° above. Maximum, 20° above; minimum, 10° above; daily range, 10°.

The local union of the Y. P. S. C. E. held a meeting in the Pilgrim congregational church last evening and elected the following officers for the ensuing year: T. H. Hawes, president; A. E. Kline, secretary; Mrs. Bunting, treasurer. Delegates were present from the congregational, Christian, Presbyterian and Methodist churches. Committees of one from each society was appointed to make arrangements for entertainments.

PERSONAL.

Miss Kate Fleming is ill of typhoid fever.

Louis Roucheleau and wife left today for California.

Campbell Hardy leaves tomorrow on a business trip to St. Paul.

G. C. Church returned yesterday from Buffalo where he has been looking after the construction of the Imperial Mill company's warehouse.

D. M. Puhlin of Marquette, general superintendent of the Duluth, South Shore & Atlantic, and G. P. Copeland, superintendent of the St. Paul & Duluth road, are both in the city today.

Manager A. S. Chase was showing a party of gentlemen around the city today. Among them were A. Griffin, of Pittsburgh; Robin Stewart T. Ferguson, of Brooklyn; and C. P. Bartleson, of Philadelphia.

A BLAST FURNACE.

Is it a Fairy Tale or Does it Mean Business?

An article in the New York Times a few days ago stated that a company had been organized in New York with a capital of \$1,000,000 to start a blast furnace at Onondaga, a suburb to Duluth. It also stated that a contract had been signed with Duluth parties for the site and for a real estate bonus.

RIGHTFULLY DISCIPLINED.

Students of the Illinois University Receive Merited Punishment.

CHAMPAIGN, Ill., March 11.—As a result of the color rush at the university of Illinois last Wednesday morning, eleven students have been disciplined.

ten indefinitely suspended and one expelled. The matter was brought up before the faculty meeting Friday evening, and it was decided to act upon the charges against the students, charging them to be leading spirits in the affair.

Among the students the majority of those suspended are not considered as ringleaders in leading spirits in the color rush, and many are surprised at their suspension, while others taking most prominent parts have not been disciplined at all, and there is much dissatisfaction at what they call discrimination.

THE SUIT WITHDRAWN.

Litigation on St. Paul School Securities Satisfactorily Settled.

ST. PAUL, March 11.—The suit of the Mutual Life Insurance company against the board of education and the city of St. Paul, in which the plaintiff sought to recover \$50,000 on three certificates of indebtedness, has been withdrawn, upon the money being tendered.

The litigation was ended through the good offices of the Commercial bank, which now holds the certificates. This happy termination, together with the fact that the board of education has succeeded in paying all back salaries of the teachers, places the city schools once more on a working basis. Special pains will now be taken that no default is made in the matter of future school securities, and it is expected that confidence will again be restored.

DETROIT ALL RIGHT.

State Assistance Granted to Aid at the National Encampment.

LANSING, Mich., March 11.—The house has passed a bill, after much opposition, authorizing Detroit to raise \$50,000 to entertain the national encampment of the Grand Army of the Republic next autumn. The bill asking \$50,000 additional from the state for the same purpose next year will be discussed next week and will probably be passed. It is well understood that without state aid Detroit could not successfully carry out the entertainment of the Grand Army, and had it not been for the assistance granted the encampment would have taken place somewhere else.

Children Cry for Pitcher's Castoria.

ANNUAL RESUME.

Fire Chief Smith Reports on the City Fire Department.

The fire commissioners have received the annual report of Assistant Chief Smith, of the fire department, for the fiscal year, ending March 1. During the past year, up to Feb. 23, there were 118 alarms of fire, 16 of which were false. There have been but one fire during the year where the loss has exceeded \$3000, viz., Nov. 22, and 224 Superior street west, owned by J. A. Willard, of Mankato. The loss on building and contents was \$3940. There have been but two months during the year that the loss exceeded \$7000; in March the loss was \$7140, and in December the loss was \$7385. The average loss per month for twelve months has been \$2367. The average loss per fire for the year has been \$313.84. The total value of property attacked by fire during the year was \$612,675; insurance, \$434,425; loss, \$32,012. Sixty per cent of the fires were extinguished by use of chemical engines. There are now 61 persons on the department pay roll, the uniformed force numbering 57.

Among the recommendations made are the purchase of a better ladder service, a portion of the city, and a set of Pommer life-saving ladder hose. The hose they are a combined chemical and hose wagon for No. 4 house, located at Fourteenth avenue east and Second street was also recommended.

Unprotected portions of the city were mentioned and an outline of effective work in those sections were forcibly given.

The department has at the present time 5000 feet of hose in good condition and 1800 feet that will stand a pressure of about seventy pounds, and 1300 feet of hose condemned. There is 2000 feet of hose ordered, 1000 feet from the Boston Wagon Hose company and 1000 feet from the Cleveland Fire Hose company, which will give the department 7000 feet of first class hose. There are thirty miles of water mains and 221 hydrants, an increase of twenty-three during the year.

All of the stations are in general good repair and no large outlay will be required. Some of the houses will need some repairs, such as new floors, roof repaired and wood work repainted; other wise they are in good condition. Two new stations have been built this year, one at the corner of Fourth avenue east and Sixth street, and one at the corner of Fourteenth avenue east and Second street, at a cost \$2700. There are four stations in all, located as follows: No. 1, on corner First avenue east and Third street; No. 2, on First between Seventeenth avenue west and Piedmont avenue; No. 3, Fifth between Second and Sixth streets; No. 4, Fourteenth avenue east and Second street.

The number of miles of runs made by the department during the year was 6254. The expenditures of the department from March 1, 1890, to February 1, 1891, were as follows: Hydrant rental, \$20,225; salaries, \$24,058.00; fuel, \$782.10; light and water, \$1746.01; hay, oats and feed, \$764.34; laundry, \$412.33; new material purchased, \$16,833.04; miscellaneous supplies, \$811.74; total, \$89,312.21. Fire Warden Baker reports that he served 492 notices during the year. There were 32 fire escapes with standpipes erected, expected during the year, and 16 notices to erect fire escapes were served.

THE CAR COMPANY.

How it is Being Reorganized in New York.

O. H. Simonds, Eittinger and other interested parties, have been in New York for the purpose of reorganizing the Minnesota Iron Car company. They have held several meetings at the office of the New York Iron Car Equipment company in New York. The grounds of reorganizing will probably be the retirement of all the officials of the company except General Manager Eittinger, who will probably remain in charge, and the attachment of the Minnesota company directly to the New York concern. The Minnesota branch will have a working capital of several hundred thousand dollars.

At the Municipal Court.

At the municipal court this morning James West, charged with stealing of clothes, was discharged. Two drunks were sent up and one fined \$12. The examination of Thos. Bence, charged with grand larceny and burglary in breaking into a box car and stealing flour, is still in progress.

Fixed the Route.

The Duluth & Winnipeg road has been definitely located from the St. Paul to Cloquet, and is nearly an air line. From Short Line Park to West Duluth it is very crooked and round about, but the route is not yet definitely settled upon. The grades, however, are easier than those of the St. Paul & Duluth road.

Wants Damages.

Aaron Wickstrom has brought a personal injury damage suit against the Tower & Soudan Street Railway company for \$13,000 for being inconsequently injured from a street car Dec. 18, 1890, by the conductor. He claimed that he was kicked and maltreated and severely injured about the head and body.

Another Charge.

Judge Eisinger today granted a motion for a new trial in the personal injury case of Frank Barneok vs. the St. Paul & Duluth road. In a former verdict the plaintiff secured \$7400. The new trial was granted on the ground of error on the part of the court and an excessive verdict.

Decidedly Short.

LITTLE ROCK, Ark., March 11.—Senator Russ, of the joint committee on Treasury Woodruff's accounts, stated that the tax collector who shorted about \$110,000 besides the admitted defalcation.

The memory of one famous pioneer missionary, Marquette, is effectively preserved in the name of Michigan's leading railroads, the Flint & Pere Marquette. From Manitowic and Milwaukee, Wisconsin, this company runs its own steamers to Ludington, Michigan, which was called Pere Marquette at the time the road began to build across Michigan to it. Pere is the French word for father.

Serious Danger.

Threatens every man, woman or child living in a region of country where fever and ague are prevalent, since the germs of malarial disease are inhaled from the air and are swallowed from the water of such a region. Medicinal safeguard is absolutely necessary to nullify this danger. As a means of fortifying and acclimating the system so as to be able to resist the malarial poison, Hostetter's Stomach Bitters is incomparably the best and the most popular. Irregularities of the stomach, liver and bowels encourage malarial fever; but these are speedily rectified by the Bitters. The functions of digestion and secretion are assisted by its use, and a vigorous as well as regular condition of the system is noted by it. Constitution and physique are thus defended against the inroads of malarial fevers, which is also a certain and thorough remedy in the worst cases of intermittent and remittent fevers.

ORDER FOR HEARING AND NOTICE OF APPOINTMENT FOR APPOINTMENT OF ADMINISTRATOR—STATE OF MINNESOTA, ss. County of St. Louis, ss. In probate court, special term, March 10, 1891.

In the matter of the estate of John Proff, deceased.

On receiving and filing the petition of John Proff, of the county of St. Louis, representing among other things that John Proff, late of the county of St. Louis in the state of Minnesota, on or about the fourth day of March, A. D. 1891, in the county of St. Louis, died intestate, and being an inhabitant of this county at the time of his death, leaving goods, chattels and estate within this county, and that the said petitioner is the father of said deceased, and praying that administration of said estate be to him granted:

It is Ordered, That notice thereof be given to the heirs of said deceased, and to all persons interested, by publishing this order on Wednesday in each week, for three successive weeks prior to said day of hearing, in The Duluth Evening Herald, a daily newspaper printed and published at Duluth, in said county.

Dated at Duluth, the tenth day of March, A. D. 1891.

By the court, PHILIP A. RAY, Judge of Probate.
